Total for INCIDENTAL EXPENSES - - - - -		£.	350	429

* One Principal Clerk receives 250*l.* for compiling, and one Junior Clerk receives 50*l.* for assisting in compiling, the Sessional Index to the Journals, the two payments for which amount to the sum which has been paid to former Clerks of the Journals for the performance of this duty in conformity with the Report of the Select Committee on House of Commons Offices in 1849.

† One Senior Clerk receives 60*l.* a year for compiling, &c. the Report of Expiring Laws in conformity with the Report of the Select Committee on Expiring Laws 1866.

‡ One Assistant Clerk receives 100*l.* as Secretary to the Chairman of Ways and Means; one Assistant Clerk receives a Sessional Allowance of 50*l.* for Special Services in the Compilation of the Votes; two Assistant Clerks and one Junior Clerk in the Journal Office, receive the 400*l.* voted for "Compiling General Index to Journals;" and one Junior Clerk receives the allowance of 50*l.* as Clerk to Examiners and Taxing Officer.

§ This rate of Salary is personal to the present Office Clerk.

¶ Duties temporarily performed by the Senior Messenger in the Serjeant's Department, who is also employed as a Writer, and receives a gratuity of 10*l.* 10*s.* for Extra Services.

¶ One Messenger is an Office Keeper in the Serjeant's Department; total of the salaries of both offices, 90*l.*; another is employed occasionally as a Messenger in the Serjeant's Department.

** These sums are divided among the Clerks on the Establishment, who perform the several duties in conformity with the said Report of Session 1849.

(a) £. 50 transferred from D.; see Note † of that Sub-Head.

* This rate of salary will not be granted except to the present Chief Clerk, and to the Officer next in seniority, should he attain to the post of Chief Clerk. The special salary of the Chief Clerkship will then be discontinued, the duties being performed and the title borne by one of the Principal Clerks. The salary of the present Fourth Principal Clerk begins, under a special arrangement, at a sum below the ordinary minimum of 900 l.
† The number of Second Class Clerkships will be reduced to nine as vacancies occur.
‡ The present Private Secretary to the Secretary of State also receives subsistence pay, as Lieutenant, R.E., at 7s. 10d. a day, from Army Funds.
§ This Officer is Senior Assistant to the Financial Clerk.
|| This allowance is paid to one of the Second Class Clerks.

* If the advertisements inserted on account of the Patent Office had been paid for (as are those of the Indian Government, the Ecclesiastical Commissioners, and the Bankruptcy Court) this amount would have been increased by a further sum of 3,229l.

Sir,

Her Majesty's Stationery Office, 6 January 1875.

I HAVE the honour to forward herewith, for the information of the Lords of Her Majesty's Treasury, an Estimate of the sums that will probably be required to defray the expenditure of this office for the public service during the financial year 1875-6; the aggregate of which, but for one circumstance, would scarcely have varied from that voted by Parliament last year; for though (as I shall explain when the financial year is nearer to its close, and I am able to ascertain our actual expenditure more accurately) I have been obliged to exceed that Vote, the excess has arisen in items which I have reason to believe will not recur in the coming year. The decision of their Lordships, however, directing that the expenses of the Telegraph Department in Stationery, Printing, &c., shall in future be borne upon our Vote, will raise my requirements by about 45,000*l*.

See Treasury Letter
of 1 January 1875.

The increase of 1,000*l*. in the aggregate salaries of the establishment is due partly to the annual increments, and partly to an augmentation of our professional staff by the addition of Two Examiners, one in London and one in Dublin, an addition not only fully warranted but rendered necessary, as I was able to satisfy their Lordships, by the large increase of our business, as well as by other considerations. It is already, I am glad to say, becoming obvious that this arrangement promises to be an economical as well as a judicious one.

A.
Salaries, Wages,
&c.

See Treasury Letters
of 2 July and 20 May
last.

In explaining the cause of this slight increase in the establishment of the Stationery Office, I wish to call the attention of their Lordships to the fact that since my appointment, now 10 years ago, I have reduced the number of established Clerks and Warehousemen entitled to Superannuation by 12; a reduction only very partially counterbalanced by an increase in the number of temporary Writers and Porters on day-pay. This reduction, however, has been effected in the face of a very large and steady increase in the business transacted and the expenditure controlled, which might appear to have warranted a considerable augmentation, in place of a reduction, of our staff.

Thus, the entire numbers on the Establishment were in—

1863-4	-	-	-	-	-	-	-	-	57
1873-4	-	-	-	-	-	-	-	-	45

The aggregate of all salaries, including payments to Writers and Porters in addition to the established staff, was—

1863-4	-	-	-	-	-	-	-	-	£.16,573, while
in 1873-4	-	-	-	-	-	-	-	-	it was only 16,821

The incidental expenses (chiefly horses and carts and miscellaneous carriage) have during the same period risen from 1,392*l*. to 3,260*l*.; but this is a matter for congratulation from an economic point of view, inasmuch as it is partly owing to a large increase in the work done for India and Re-paying Offices, which allow us a commission, but chiefly to the great quantities of waste collected and sold by the Stationery Office, the proceeds in both cases being paid into the Exchequer.

Thus, our commissions on work done have doubled in the course of the 10 years, and are now above 4,500*l*.; while the proceeds from the sale of waste collected (even notwithstanding a considerable fall of price) has risen from 6,400*l*. to 10,400*l*. In one year the sum reached 13,400*l*.

The increase in our general business is not so easy to measure, new offices being yearly put upon us, and the work of the old ones almost annually swelling. In the course of the last 25 years upwards of 120 new departments or branches have been added to the list of those for whose wants in printing, binding, books, paper, and general stores the Stationery Office has to provide; and the demands of some of these are very troublesome as well as costly—the aggregate amount reaching to more than 100,000*l*. a year. But three facts will give some means of approximately estimating the augmentation. The aggregate amount of Printing Bills examined increased 50 per cent. between 1862 and 1872. The quantity of Paper issued to, or on behalf of, the various Government Offices rose between 1864 and 1874 from 150,000 to 220,000 reams, or 40 per cent.; while the quantities purchased for India within the same period rose from 45,000 to 240,000 reams, or 400 per cent.

Finally, as it is only just to set against the cost of our establishment the commission we receive from offices for which we work, and whose work swells our expenses, it will be seen that the net cost of the Stationery Office is decidedly lower than it was eight years ago. Thus—

	1865-66.	1873-74.
	£.	£.
Salaries and Contingent Expenses of the Stationery Office -	18,665	20,082
Less, 2½ and 5 per cent. Commission paid us by India and		
Re-paying Offices respectively - - - - -	2,178	4,431
£.	16,487	15,651

See Appendix,
No. 27, p. 656, Parl.
Paper 311 of Session
1873.

It would appear, therefore, that I have not only succeeded in transacting a much larger business at a distinctly lessened cost, but in effecting savings in our aggregate expenditure for Public Departments amounting to 17,000 *l.* a year.

E.
Printing for Public
Departments.

This is always to a very great extent a conjectural item, as the demands can never be accurately calculated beforehand, even by the Departments making them. But though the expenditure during the current year will have exceeded the estimate, this excess has been owing to special needs, which are not expected to recur next year. Still, as the item, though peculiarly fluctuating, is on the whole an increasing one, and as the requirements of the Telegraph Service will absorb 20,000 *l.*, I cannot safely ask for less than 122,000 *l.*

F.
Paper for Public
Departments.

The consumption of Paper for Public Departments is governed partly by the demands under Sub-heads E. and H., and partly by the price of the article; and as we do not anticipate any material increase of Printing or Binding in 1875-6, and as prices of certain descriptions of Paper extensively consumed are declining (though others remain firm), I should not have asked for more than 118,500 *l.* for our expenditure under this head, had it not been for the addition of the Telegraph Service, which I calculate will require 21,000 *l.*

G.
Parchments and
Vellums for Public
Departments.

The issue of Parchments during the current year has been unusually large; partly for the Quinquennial Record Books in Dublin, an outlay which will not recur for some years, partly owing to an excess of demands from the Inland Revenue Department for Parchments which are re-sold to the public, and therefore are not actually a cost to the Exchequer. This portion of our consumption (which, be it remembered, is fully repaid) appears likely to continue undiminished, and we shall probably, therefore, require the same sum as in 1874-5.

H.
Binding for
Public Depart-
ments.

Various new charges for Binding, hitherto paid by other offices, will have to be provided for by the Stationery Office next year, though each (with the exception of the Telegraph Department, which will require 1,300 *l.*) only to a small amount. I propose, therefore, to ask for an increase of 1,800 *l.*, or 41,300 *l.* in all.

I.
Small Stores for
Public Depart-
ments.

According to the best materials for forming an opinion which I have been able to collect, I see no reason for departing from the sum I asked last year for general purposes, but I shall need 2,700 *l.* for the Telegraph Service, making a total of 42,200 *l.*

J.
Printing, Paper,
Binding, &c., for
two Houses of
Parliament.

It is obviously impossible in December 1874, to form more than a mere conjecture whether the amount of Printing likely to be ordered by the two Houses of Parliament during the year 1875-6, will exceed or fall short of that of the previous year. It is almost as difficult to form a similar comparison with reference to the amount of Reports and Papers which the various Government Departments may direct to be laid before Parliament. Nor would an average of years be any real guide; for the annual outlay for Parliamentary Printing has fluctuated within the last few years from 72,000 *l.* to 94,000 *l.*, or above 30 per cent. The only distinct and relevant fact I have to guide me is the number of pages of "Command Papers" in type at different dates, and the number and importance of the "Temporary Commissions" likely to report during the year. Judging from these very inadequate data, however, and finding that we have between two and three thousand fewer pages preparing for presentation than last year, I think I may venture to hope that 85,000 *l.** may suffice.

K.
Printing, Paper,
Binding, &c., for
Stationery Office
Publications.

An unusually large issue of military books will have caused us to exceed our estimate for Stationery Office publications during the current year; and the probability of some costly geological works, &c., being ready for issue in 1875-6, obliges me to ask for 1,000 *l.* more than my last estimate. Their Lordships, however, are aware that all these works are sold to the public, and the proceeds paid into the Exchequer.

L. M. N. O.

The remaining items present scarcely any variation, and call for no remark. But in forwarding the estimate I may be allowed to call attention to the fact which appears on the "Approximate Balance Sheet," that the net expenditure or real cost to the country of the Stationery Office was in 1873-4 less by 12,000 *l.* than in 1872-3.

I am, &c.

(signed) *W. R. Greg,*

Controller.

The Secretary to the Treasury,
Treasury Chambers.

*This sum was subsequently reduced to 82,000 *l.*

BALANCE SHEET for the Year 1873-74, showing approximately the Net Cost of

PAUPER LUNATICS, IRELAND.

I. ESTIMATE of the Amount required in the Year ending 31st March 1876, in Aid of the Local Cost of MAINTENANCE of PAUPER LUNATICS, IRELAND.

Fifty-five Thousand Six Hundred and Ninety-two Pounds.

II. HEAD under which this Vote will be accounted for by the CHIEF SECRETARY, IRELAND.

	1875-76.	1874-75.
	£.	£.
PAUPER LUNATICS (A RE-VOTE) - - - - -	55,692	55,692

III. DETAILS of the above.

	1875-76.	1874-75.
	£.	£.
PAUPER LUNATICS:		
Contribution in aid of Maintenance in District Asylums, at the maximum rate of 4s. per head per week, from 1st April to 31st December 1874 - - - - -	55,692	55,692

Note.—The Accounts of Irish District Lunatic Asylums are required by 31 & 32 Vict. c. 97, ss. 5 and 6, to be made up annually to 31st December, and to be audited by the Poor Law Auditors for the Unions as soon as can be after the 25th March. Since, therefore, the Government Contribution can only be paid upon Returns of the Number and Cost of Pauper Lunatics, certified by the Auditors, no payment in respect of any period later than 31st December 1874 will be made during 1875-6.

In future Estimates, of course, a full year's contribution will be provided for.

G.—INCIDENTAL EXPENSES :		
Jury Lists - - - - -	220	200
Other Expenses - - - - -	850	785
Total for INCIDENTAL EXPENSES - - - £.	1,070	985

By sect. 82 of 19 & 20 Vict. c. 108, a Registrar is paid 120 *l.* for the first 200 plaints entered in a year in a Court; and 5 *l.* for every 25 plaints entered to 1,000, and then by 4 *l.* till the plaints reach 6,000; out of this salary the necessary clerks are paid by the Registrar. Where the plaints exceed 6,000, a net salary of 650 *l.* is paid if the entry of plaints does not exceed 8,000, and of 700 *l.*, if it does, with an allowance for clerk hire.

By sect. 14 of 29 Vict. c. 14, the above scale is reduced, as regards Registrars thereafter appointed, to 100 *l.* for the first 200 plaints, and 4 *l.* for every 25 plaints up to 6,000, instead of 5 *l.* and 4 *l.*, as last stated.

By sect. 11 of 29 Vict. c. 14, on a vacancy occurring in the office of High Bailiff, the Registrar, if appointed subsequent to Act, must perform the duties of High Bailiff. His remuneration is a sum equal to one-fifth of his *net* salary as Registrar, with an allowance for the service and execution of process.

By sect. 83 of 19 & 20 Vict. c. 108, the High Bailiffs are paid partly by salaries and partly by allowances, which vary in amount according to the circumstances of each district.

* The remuneration payable for these Services is a fixed proportion of the amount levied as Stamp Duty, and which duty is paid into the Exchequer. See the Vote for the London Bankruptcy Court.

C.—INCIDENTAL EXPENSES:			
	Allowance of 12 <i>l.</i> per annum to each Inspector for Postage, Parcels, &c. - - - - -	48	48

† The increase of 147,000 *l.* is due to the fact that the increased Government contribution, payable from the 26th March 1874, was only required in the year 1874-75 for the six months ending 29th September 1874, the Grant for the half-year from 30th September 1874 to 25th March 1875 not coming into course of payment during the financial year 1874-75. The Estimate for 1875-76 is for an entire year at the higher contribution.

‡ As regards Scotland, the increased contribution is payable from the 16th March 1874. The Grant being paid annually after the close of close of the year no increased proportion would be payable until after the 15th March 1875. Hence, no additional contribution became payable in 1874-75, and the Estimate of 55,000 *l.* was framed on the old arrangement of one-fourth of the charge. In the year 1875-76 will be paid a full year's increased rate for the year ended 15th March 1875.

— 13. —

CONVICT ESTABLISHMENTS IN ENGLAND AND THE COLONIES.

I. ESTIMATE of the Amount required in the Year ending 31st March 1876, to defray the Expense of the SUPERINTENDENCE of CONVICT ESTABLISHMENTS, and of the MAINTENANCE of CONVICTS in CONVICT ESTABLISHMENTS, in *England* and the Colonies.

Four Hundred and Forty-six Thousand Two Hundred and Twenty-seven Pounds.

II. SUB-HEADS under which this Vote will be accounted for by the DIRECTORS of PRISONS.

1.—PUBLIC EDUCATION, ENGLAND AND WALES—*continued.*

F. The numbers, 2,004,670 Day Scholars and 52,897 Evening Scholars, are arrived at as follows:—

	Day Schools.	Evening Schools.
Average number of Scholars in attendance in Schools actually inspected in the year ended 31st August 1874. This number is the basis of calculating the other figures in these columns - -	1,678,589	48,686
Add for increase for one year for Day Schools, at 13·2 per cent.	221,573	—
Add for increase for one year for Evening Schools at 6 per cent. -	- - -	2,921
Estimated average number in attendance at Schools to be inspected in the year ending 31st August 1875 - - - - -	1,900,162	51,607
Add <i>five-twelfths</i> * of the same rates of increase on 1,900,162 Day Scholars, and 51,607 Evening Scholars for the <i>seven</i> * months to follow from 31st August 1875 up to 31st March 1876 :		
Five-twelfths of 13·2 per cent. on 1,900,162 Day Scholars - -	104,508	—
Five-twelfths of 6 per cent. on 51,607 Evening Scholars - -	- - -	1,290
Estimated average number of Scholars in attendance in Schools to which grants will be paid in the year ending 31st March 1876 -}	2,004,670	52,897

The *rate* of grant actually paid per *day* scholar, for the years ending 31st August, rose under the Revised Code from 8s. 1d. in 1863, and 9s. in 1864-5-6-7, 9s. 4½d. in 1868, 9s. 7d. in 1869, to 9s. 9½d. in 1870. The grant for the year ending 31st August 1871, was paid partly under the Revised Code, and partly under the New Code 1871; it reached 10s. 4½d. per scholar. The rate has risen under the New Code, from 11s. 9½d. in 1872 to 12s. 2d. in 1873, and to 12s. 4d. in 1874; it is estimated at 12s. 5½d. for the year ending 31st March 1876.

The rate of grant per *evening* scholar for the years ending 31st August, was 5s. 9½d. in 1865, 5s. 8d. in 1866, 6s. 3d. in 1867, 6s. 4½d. in 1868, 6s. 6½d. in 1869, 6s. 9d. in 1870, and 6s. 7½d. in 1871. The grant for 1872 was paid partly under the Revised Code, and partly under the New Code 1872; it reached 6s. 10½d. per scholar. In 1873, the rate had risen under the New Code to 7s. 9d.; in 1874 it fell to 7s. 7½d.; it is estimated at 7s. 9d. for the year ending 31st March 1876.

G.—Section 97 of the Elementary Education Act, 1870, provides, *inter alia*, that “where the School Board satisfy the Education Department, that in any year ending the 29th September, the sum required for the purpose of the annual expenses of the School Board of any school district, and actually paid to the Treasurer of such Board by the rating authority, amounted to a sum which would have been raised by a rate of 3d. in the pound on the rateable value of such district, and any such rate would have produced less than 20l., or less than 7s. 6d. per child of the number of children in average attendance at the public Elementary Schools provided by such School Board, such School Board shall be entitled, in addition to the annual Parliamentary Grant in aid of the public Elementary Schools provided by them, to such further sum out of moneys provided by Parliament, as, when added to the sum actually so paid by the rating authority, would, as the case may be, make up the sum of 20l., or the sum of 7s. 6d. for each such child, but no attendance shall be reckoned for the purpose of calculating such average attendance, unless it is an attendance as defined in the said Minutes,” *i. e.*, Minutes of the Education Department in force for the time being.

H.—Section 96 of the Elementary Education Act, 1870, provides, *inter alia*, that “no Parliamentary Grant shall be made in aid of building, enlarging, improving, or fitting up any elementary school, except in pursuance of a memorial duly signed, and containing the information required by the Education Department for enabling them to decide on the application, and sent to the Education Department on or before the Thirty-first day of December, One thousand eight hundred and seventy.”

I.—In calculating the estimate for Grants to Training Colleges, it is assumed that 100l. represents the cost of training a male, and 70l. that of training a female student, during two years. The College is credited annually with 100l. for each of its male, and 70l. for each of its female students, who, after probationary service as a teacher, obtains a certificate; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in residence.

K.—This Estimate provides for expenses to be incurred in carrying into effect the provisions of the Education Act which relate to the organization of school districts; and also for various items of expenditure under that Act, which are inapplicable to the foregoing heads of service.

* Each year of inspection is closed on 31st August, in order to allow time for the tabulation of its results. The end of the financial year (31st March) falls seven months later. It is sufficient to add *five* instead of *seven* months at the increased rate, because payment is ordinarily two months in arrear of inspection.

1.—PUBLIC EDUCATION, ENGLAND AND WALES—*continued.*

This and the remaining pages do not contain Estimates, but Accounts of the past year, given by way of explanation.

* These Masters and Teachers receive in addition a proportion, varying according to circumstances, of Students' Fees, and there are other Teachers who are paid wholly by Fees. The Fees received from Students in the Art School in the year ending 31st March 1874, amounted to 2,467 l.; of this sum there has been divided among the Teachers, 1,881 l. 3s. 4d.; paid to the Exchequer, 248 l. 2s. 4d.

† 2,397 Public Elementary Schools were examined in 1874, being an addition of 312 schools to the number examined in the previous year.

‡ There are now in operation 562 Art night classes, and 130 Schools of Art.

The sums provided in these sub-heads are paid to Managers under Minutes of 9th January and 1st June 1865.

(a) SCIENCE and ART SCHOOLS and CLASSES examined in May 1874.

The number of Papers in Science worked by Students, and examined, in 1874, was 61,796; in 1873, 56,620.

(B. 9.) The following are Professional Examiners in Art, viz.:—

Sir F. Grant, F.R.A.; Sir M. Digby Wyatt; C. W. Cope, R.A.; R. Redgrave, R.A.; F. R. Pickersgill, R.A.; H. Weekes, R.A.; J. C. Horsley, R.A.; F. Leighton, R.A.; J. Marshall, F.R.S.; with Assistants.

The number of Papers in Art, worked by Students under examination, and examined, in 1874, was 261,262, and 184,649 drawings were submitted in competition for prizes; in 1873, 186,937 worked papers, and 129,249 drawings.

(C. 1.) The General Stores Division is the channel through which all Prizes for Science and Art Schools, Drawings for Examination, and objects for circulation or for the Museum are received, examined, and distributed.

The Select Committee on Schools of Art, 1864, recommended “that the Collection of Works of Decorative Art at South Kensington be made more generally useful than at present throughout the country, especially in connection with local museums.” Objects, therefore, are circulated, and the work increases largely every year.

CIRCULATION of Objects to Exhibitions in Aid of Schools of Art for the Purpose of Study.

Since 1854, contributions have been made to 245 Exhibitions, 153 of which have returned total number of Visitors amounting to 5,055,120 persons. Whilst to 15 of these Exhibitions the admission was free, 94 localities returned amount of fees received for admission at 112,183*l.* 15*s.* 6*d.* 39 of the Exhibitions declared a surplus, after payment of all expenses, amounting to a total of 26,700*l.* Besides the Exhibitions included in the above return, large contributions were sent to Manchester, 1857, Dublin, 1865, Leeds, 1868; contributions have been also sent annually to the Fine Art Collection of the Bath and West of England Society. The Return of Visitors to these Exhibitions is given by the Committees as 3,812,458. The Museum, as a general storehouse for objects which can be sent to Schools of Science and Art, has, under the term Circulation, three distinct classes of objects, &c., which are distributed under the following heads:—

1. Examples, paintings, water-colour drawings, books, &c., from the Art Library, furnished on application to schools for stated periods for the purpose of study.

2. Original Art objects, paintings, water-colour drawings, electrotype reproductions of objects from foreign museums and private collections, which, according to the first list, comprises a total number of 3,686 specimens.

3. Circulation or distribution of works specially prepared from the original Art objects reproduced by means of chromo-lithography, photography, etching and electrotyping; these are sent on deposit loan, to be retained by the schools for a period of one or more years.

This List comprises the following publications, for distribution to Schools of Art:—

Universal Catalogue of Books on Art, 2 vols. 4to.

Universal Inventory of Objects of Art, Mosaics, 1 vol. 8vo.

Two Parts—Each part contains chromo-lithographs of four of the principal objects of Art in the South Kensington Museum.

Three volumes, each of 50 etchings, of objects of Art in the Museum.

Books of Photographs of Italian Jewellery; of Batalha, in Portugal; of Ecclesiastical Metal Work; of Henri Deux Ware; of the Cathedral of Santiago, in Spain; of Terra Cotta columns designed by the late Godfrey Sykes; of the Treasures of Petrossa; of Decorative Plate; of Musical Instruments; of Holbein's Designs; of Arcade in Rome; of Roman Fountains.

Illustrations of Indian Architecture.

Drawings of Life Studies by the late W. Mulready, R.A.

French Crayon Drawings of Life Studies.

French Mechanical Studies.

Burslem.	Halifax.	Paisley.	Waterford.
Cambridge.	Hanley.	Pendleton.	Wells.
Cardiff.	Hereford.	Penzance.	Whitehaven.
Carlisle.	Hull.	Portsmouth.	Wick.
Carnarvon.	Inverness.	Redditch.	Wigan.
Cheltenham.	Kendal.	Ripon.	Wilton.
Chester.	Kidderminster.	Romsey.	Wolverhampton.
Clonmel.	Kilmarnock.	Ruthin.	Worcester.
Cork.	King's Lynn.	Ryde.	Yarmouth.
Coventry.	Lancaster.	Salford.	York.

(C. 2 & 3.) These purchases are supplementary, a large number of the books and objects in the collections being constantly presented to the nation by the public. The collections of Naval Architecture were transferred from vaults in Somerset House for the use of the Students of the School of Naval Architecture, and the inspection of the public. Numerous additions have been made by private shipbuilders.

The Educational Library was attended in 1874 by 19,624 persons; in 1873 by 17,073.

The Museum has been enriched by a bequest of valuable books, drawings, paintings, and engravings, by the Rev. Alexander Dyce. The Competition Drawings for the Law Courts have been presented by the First Commissioner of Works.

GIFTS AND BEQUESTS to the South Kensington Museum.

The principal Gifts and Bequests to the Museum :—

In 1857. By John Sheepshanks, Esq., 233 oil paintings, 196 water colour paintings, etchings and other drawings. (Gift.) (Mr. Sheepshanks died in 1863.)

In 1860. By Mrs. Elizabeth Ellison, 51 water colour paintings. (Acting in the spirit of the intention of her late husband, Richard Ellison, Esq., of Sudbrooke House, Lincolnshire.) For the purpose of forming a national collection of water colour drawings. (Gift.)

In 1864. By Rev. R. Brooke, 396 objects, consisting of textiles, watches, rings, &c., and 718 volumes of books. (Gift.)

In 1867. Mrs. Wollaston, 211 drawings of mosaics, made for and collected by the late Dr. Robert Wollaston. (Gift.)

In 1867. By W. Minshull Bigg, Esq., the three following works in marble, by Lough: "Puck," "Titania," "The Melancholy Jaques." (Bequest.)

In 1867 and 1868. By Sir C. Wentworth Dilke, Bart., M.P., 297 volumes, 862 pamphlets, and 155 prints, illustrating the Great Exhibition, 1851. (Gift.) (Sir Wentworth died in 1869.)

In 1868. By Mrs. Louisa Plumley, 43 enamel paintings by Essex, Bone, and other artists. (Bequest.)

In 1868. By John Ella, Esq., 329 volumes of music, printed, and in MS.; 6 busts, 1 oil painting (a portrait of Rossini). From the Library of the Musical Union Institute. (Gift.)

In 1868. By Rev. Chauncy Hare Townshend, 211 objects, chiefly jewels, 145 oil paintings, 175 water colour paintings, 4,218 Swiss coins, 831 volumes, 390 drawings, 1,815 prints. (Bequest.)

In 1869. By Rev. Alexander Dyce, 80 pictures, 62 miniatures, 83 drawings, 1,511 prints, 74 rings, 27 Art objects, 13,596 books. (Bequest.)

In 1870. By Mr. William Gibbs, a collection of Roman, Celtic, and Anglo-Saxon relics, consisting of ancient glass beads, jewellery, terra cotta, horse trappings, weapons; also a series of drawings of antiquities. (Bequest.)

In 1871. By C. T. Maud, Esq., 6 oil paintings by Masters of the English School. (Gift.)

In 1871. By W. S. Louch, Esq., 2 oil paintings, 2 water colour paintings, and 6 miniatures. (Bequest.)

In 1871. By W. Smith, Esq., 86 early English water colour drawings. (Gift.)

In 1871. By Mr. John Meeson Parsons, a collection of 92 oil and 47 water-colour paintings. (Bequest.)

In 1872. By Thomas Millard, Esq., a collection of 85 gold and 112 silver coins.

In 1872. By Mrs. Tatlock, 1 oil painting by W. Hilton, R.A., and 4 oil and 12 water colour paintings by P. De Wint, English, 19th century. (Gift.)

In 1872. By Lady Walsley, a collection of 13 oil paintings, portraits, by C. Lucy and W. Daniels, English, 19th century. (Gift.)

In 1873. By the Trustees of the late Mrs. Elizabeth Ellison, 49 water colour paintings, completing the gift of 100 pictures, 51 having been given in 1860. (Gift.)

In 1873. By C. T. Maud, Esq., 11 water colour paintings and drawings. (Gift.)

In 1874. By Alexander Barker, Esq., old Venetian furniture and velvet hangings.

(C. 9.) The Art Library was attended by 21,359 persons in 1874; by 20,456 persons in 1873. Books are also circulated to Local Schools of Art under proper regulations.

NOTES.

* Personal to the present keeper.

† The Metropolitan Police Force has the entire charge of watching the Museum, both internally and externally. The Museum and Schools are lighted from sunset till 10 p.m., and great precautions against fire are necessary. There is a detachment of Royal Engineers on the premises to act if wanted. The numbers attending the Museum in the evening, since the opening in 1857, have been 4,570,502.

‡ The numbers of artisans and labourers employed are regulated from time to time according to the requirements of the service. The number of Visitors to the Museum during the year 1874 has been, in the morning, 642,880, and in the evening, 271,247; giving a total of 914,127 persons. Since the opening of the Museum, from 22 June 1857 to 31 December 1874 it has been visited by 13,940,228 persons. The annual average, excluding 1862, the year of the Exhibition, has been 776,910.

† Includes an allowance of from 10 l. to 50 l. to each Inspector's Assistant.

8.—PUBLIC EDUCATION, SCOTLAND—*continued.*

D.—The numbers, 335,626 Day Scholars and 7,221 Evening Scholars, are arrived at as follows :—

	Day Schools.	Evening Schools.
Average number of Scholars in attendance in Schools actually inspected in the year ended 31st August 1874. This number is the basis of calculating the other figures in these columns - -	266,228	5,55
Add for increase for one year, viz. : 17·5 per cent. for Day Schools and 20 per cent. for Evening Schools - - - - -	46,589	1,111
Estimated average number in attendance at Schools to be inspected in the year ending 31st August 1875 - - - - -	312,817	6,666
Add <i>five-twelfths</i> * of the same rate of increase on 312,817 Day Scholars, and 6,666 Evening Scholars, for the <i>seven</i> * months to follow from 31st August 1875 up to 31st March 1876 :		
Five-twelfths of 17·5 per cent. on 312,817 Day Scholars. - - }	22,809	555
Five-twelfths of 20 per cent. on 6,666 Evening Scholars - - }		
Estimated average number of Scholars in attendance in Schools to which grants will be paid in the year ending 31st March 1876 - }	335,626	7,221

In the year ending 31st August 1874, the grant was paid partly under the conditions of the Code of 1860, and partly under the conditions of the Scotch Code of 1873.

The *rate* of grant actually paid per *day* scholar, under the Code of 1860, was 9s. 11½ *d.*, and under the Code of 1873, 11s. 10½ *d.*, the average rate being 10s. 8½ *d.* The grant for the year ending 31st March 1876 will be paid under the conditions of the Scotch Code ; it is estimated that the rate will rise to 12s. 6 *d.*

The rate of grant per *evening* scholar for the year ending 31st March 1876, has been calculated at 7s. 6 *d.*

E.—Section 67 of the Education (Scotland) Act, 1872, provides, *inter alia*, that “ Where in any parish or burgh a school rate of not less than three pence in the pound on the rateable value of such parish or burgh shall be levied, and the whole produce of such rate is less than twenty pounds or more than seven shillings and sixpence per child of the number of children in average attendance at the public schools provided by the school boards in such parish or burgh, such school board shall be entitled, in addition to the Parliamentary grant in aid of the public schools provided by them, to such further sum out of moneys provided by Parliament as will, together with the produce of the rate, make up the sum of twenty pounds or seven shillings and sixpence for each such child.”

G.—Section 67 of the Education Act (Scotland), provides *inter alia*, that “ No Parliamentary grant shall be made in aid of building, enlarging, improving, or fitting up any school, except in pursuance of a written application from a school board, containing the information required by the Scotch Education Department for enabling them to decide thereon, and sent to the said department on or before the 31st day of December One thousand eight hundred and seventy-three, but without prejudice to applications made prior to the passing of this Act being dealt with according to the existing laws.”

H.—In calculating the estimate for Grants to Training Colleges, it is assumed that 100 *l.* represents the cost of training a male, and 70 *l.* that of training a female student, during two years. The College is credited annually with 100 *l.* for each of its male, and 70 *l.* for each of its female students, who, after probationary service as a teacher, obtains a certificate ; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in residence.

The number of students in residence, in respect of whom grants are made, is largely increased in the current over the past year.

* Each year of inspection is closed on 31st August, in order to allow time for the tabulation of its results. The end of the financial year (31st March) falls seven months later. It is sufficient to add *five* instead of *seven* months at the increased rate, because payment is ordinarily two months in arrear of inspection.

8.—PUBLIC EDUCATION, SCOTLAND—*continued*.

This and the remaining pages do not contain Estimates, but Accounts of the past year, given by way of explanation.

Carried forward - - - £.		14,150	15,450

* These Teachers also give instruction in the Evening Department.

† The Head Teachers in the several District and Minor Model Schools are paid according to *scale*, and receive in addition a proportion of the school fees and also of the Results' fees.

Scale.—The male teachers receive a minimum of 60*l.* per annum, with furnished residence, and after three years' service the salary is increased by 5*l.* per annum to 100*l.* per annum. The female teachers receive 55*l.* a year, which, after three years' service is increased by 2*l.* 10*s.* per annum to 75*l.*

Assistant Teachers in Model Schools are paid according to Class, with a Supplemental Salary and a share of the school fees. The Supplemental Salary for Males is 16*l.*, and for Females 12*l.* per annum. The proportion of Fees, ranging from *one-twentieth* to *one-half*, is regulated chiefly by the number of Assistants employed, and this depends on the school attendance.

* The present Governor of Bermuda receives from Army Funds the regimental pay of 26*s.* a day, as a Colonel of the Royal Artillery.

† The sum of 200*l.* for the Colonial Secretary is inserted in this Estimate in order that the present holder of the office may continue to receive the same salary as that on which he was originally appointed; but after his death or retirement, the whole expense of the office will be defrayed by the Colony.

‡ This salary has been raised to 1,200*l.* per annum, from 1st January 1875. The sum provided for 1875-76 therefore includes 50*l.* for arrears.

* In addition to salary as Senior Clerk in the Public Record Office.

† This amount is to provide for payment, at fixed rates, of Officers of the House of Lords engaged under the Commission on this service, and for other expenses connected therewith.

EXTRACT from a LETTER of *Sir T. Duffus Hardy* to the Treasury, dated 8th January 1875.

THE Fourth Report of the Commission was published in July last, and a copy was forwarded to their Lordships. The Fifth Report is in preparation, and will be published in the course of the present year.

As to the probable duration of the Commission, I can only repeat what Lord Romilly said last year, that it is scarcely possible to give an opinion. The Commissioners continue to receive from the various owners of collections notifications of their willingness to have their papers examined, and they trust their operations will be so far extended, that eventually there may not be a private collection of documents of any extent or importance which has not come under their cognizance.

* In addition to Salary as Junior Clerk in the War Office.

EXTRACT from REPORT of Secretary, dated 7th January 1875.

WITH regard to the work of the Commission, concerning which information is also required, I am directed by the Duke of Devonshire to state that, up to the present time, 166 witnesses have been examined, and two volumes of evidence taken have been published.

Five Reports have been published, viz. :—

1. On the Royal School of Mines, the Geological Survey of Great Britain, and the Science School at South Kensington.
2. On Scientific Instruction in Training Colleges and Elementary Day Schools under the Education Department, and in Science Classes under the Science and Art Department.
3. On Scientific Education within the Universities of Oxford and Cambridge.
4. On the British Museum and other Scientific Museums.
5. On Scientific Instruction at University and King's Colleges, London; Owen's College, Manchester; the College of Physical Science, Newcastle-on-Tyne; and the Catholic University of Ireland.

The work in hand at present is as follows :

The following Reports are in preparation :—

1. On Science Teaching in Public and Endowed Schools.
2. On the University of London.
3. On the Scotch Universities.
4. On the Irish Universities.
5. On the Advancement of Science.

I am also to state that Reports on Science-teaching in public, and first grade schools in England, and on the aid given by the State to science in France, have been prepared by the Secretary.

Returns have been obtained from a considerable number of Endowed Grammar Schools in various parts of England.

It is proposed that after Easter three of the Commissioners should visit the various colleges in Germany to make inquiry with regard to scientific instruction and the advancement of science in that country. This step has been already approved by the Treasury.

In the accompanying Estimate, a sum has been taken for nine months, viz., to the 31st of December 1875, by which time it is fully expected the labours of the Commission will be completed.

EXTRACT from REPORT of Secretary, dated 9th January 1875.

THE Board of Trade inspecting officers have been examined at length. Returns have been sent in by nearly all railway companies in the United Kingdom on the subject of the working of trains. Returns have been sent in by the same of their staff of supervision, their working staff, rolling stock, &c. &c.

The above returns have been partly analysed, and completely arranged and classified.

The examination of railway servants is to commence on Monday, the 11th inst., based on the information afforded by the above returns, but also embracing general questions.

The Commission cannot conclude until August at the earliest.

† A portion of these Expenses is to be repaid by the Government of India. See page 561.

3.—POST OFFICE—*continued*,—Sub-Head (H.)

H.—PURCHASE OF SITES AND BUILDINGS.

		1875-76.	1874-75.
	£.	£.	£.
H. 1.—LONDON.—DISTRICT POST OFFICES, BRANCH OFFICES, AND LETTER CARRIERS' SORTING OFFICES:			
Towards purchase of freehold property, or of leasehold interests, for the purpose of enlarging existing Post Offices (if means can be found); and also of providing Sites for new Sorting Offices and Branch Post Offices—Provisional Vote*	2,000		
TOTAL for PURCHASE of SITES and BUILDINGS in LONDON - - - - - }	- - £.	2,000	4,000
H. 2.—PROVINCIAL OFFICES.—PURCHASE OF SITES AND BUILDINGS:			
Glasgow.—To complete payment of purchase money for property acquired in 1871 from Merchant's House, for enlargement of Post Office (first instalment of 15,000 l. was paid in 1872)*	12,000		
Glasgow.—For compensation to certain tenants of same property for quitting possession at Whitsuntide 1875 - - - - - }	1,200		
Other Provincial Towns.—Towards purchase of pro- perty for new Post Offices, and for enlargement of existing Offices—Provisional Vote† - - }	11,800		
Supplementary Estimate - - - - - }	- - -	- -	35,000
TOTAL for PURCHASE of SITES and BUILDINGS for PROVINCIAL OFFICES - - - - - }	- - £.	a 25,000	20,000
TOTAL - - - - -	£.	27,000	59,000
a. Deduct proportion of Sub-Head H 2, probably chargeable to Postal Telegraph Vote (see Vote for Post Office Tele- graph Service, Sub-Head P, page 582 - - - - - }	- - -	9,000	—
TOTAL for BUILDINGS - - - - -	£.	18,000	59,000

* Possibly this payment may be made during the present financial year, through failure to complete other contemplated purchases; in which case the money proposed for the Glasgow service would be applied to effect those other purchases in the course of next year.

† In the case of a Provisional Vote, it will be understood that no actual outlay of money will be made without specific authority of the Treasury.

Memo.—Questions are also under consideration of acquiring a site for another General Post Office building in London, for the accommodation of the Central Savings Bank Establishment, and other branches of the office; and also of acquiring a site for a new Post Office at Manchester. In the event, however, of schemes being matured for these purposes, it will probably be thought well to make provision for the necessary expenditure, by means of special Estimates, to be laid separately before Parliament.

W. H. SMITH.

EXPLANATIONS.

- Class I. Vote 1.—*Royal Palaces*.—This Excess is mainly due to unforeseen works at Hampton Court Palace, consequent on changes of occupation; to the ordinary maintenance of that building having proved more costly than was anticipated, and apartments in St. James's Palace were furnished for which no provision had been made.
- „ „ 2.—*Royal Parks and Pleasure Gardens*.—It was found impossible to effect a Saving under the Sub-head "Maintenance," which had been considered in settling the amount provided in the "Original Estimate."
- „ „ 14.—*County Courts Buildings*.—The Bills for Halifax County Court, amounting to 2,800 l., were, owing to the illness of the contractor, received too late for payment within the Year 1872-73, and thus became a charge upon this Year's Vote.
- „ „ 16.—*Surveys of the United Kingdom*.—The Excess is mainly occasioned by the continued employment of a large number of Surveyors and Draughtsmen for the execution of the Survey required by the Thames Valley Drainage Commissioners; the preparation of Plans for the Irish Church Temporalities Commissioners, on account of both of which Services repayments will be made as Exchequer Extra Receipts, and by the expense of Plans showing the Boundaries of each Parish and Poor Law Union for the use of the Local Government Board. Certain Stores were also purchased causing an Excess on the provision for "Stores."
- „ „ 30.—*British Consulate and Embassy Houses, Constantinople, China, Japan, and Teheran*.—Arrangements had been made for proceeding rapidly with several important works in China and Japan, and the progress made during an unusually favourable winter season led to an Excess. The distance at which these works were being carried on prevented the Excess being ascertained in time to admit of a Supplementary Estimate being submitted to Parliament.
- Class II. Vote 2.—*House of Commons Offices*.—The Charges for Witnesses and Shorthand Writers attending Public Committees were greater than were estimated, and above the average of former years.
- „ „ 6.—*Colonial Office*.—Accounts for Telegrams for five Quarters came in course of payment within the year; but independently of this, there was a considerable Excess over the estimated rate of expenditure for Telegrams. It is stated to be impossible to forecast accurately the disbursements under this head of service.
- „ „ 8.—*Board of Trade*.—Expenses for copying occasioned by the Royal Commission on Shipping were incurred beyond the provision; the expenses of numerous inquiries into Railway Accidents had to be met; and also the cost of defending the right of the Crown to foreshores, under 29 & 30 Vict. c. 62.
- „ „ 11.—*Civil Service Commission*.—This Excess is attributable to the Expenditure for Assistant Examiners required for Examinations for the Army as well as for the Civil Service. This Expenditure is to a very limited extent under the control of the Commissioners, and it is stated to be impossible to foresee accurately at the time the Estimate is prepared what amount of work may fall within the year.
- „ „ 15.—*Registrars of Friendly Societies*.—Allowances for extra assistance caused the Excess.
- „ „ 29.—*Exchequer and other Offices in Scotland*.—This Excess was occasioned by additions to Salaries, in lieu of Allowances hitherto charged against the Vote for the Inland Revenue Department.
- „ „ 38.—*General Register Office, Ireland*.—The amount required for remuneration in respect of work connected with the Census of Ireland, 1871, was more than was anticipated.
- „ „ 41.—*Office of Public Works, Ireland*.—This Deficiency arises from the re-organization of the Office.
- Class III. Vote 9.—*Land Registry Office*.—The payments to Writers exceeded the Estimate.
- „ „ 11.—*Metropolitan Police*.—The Police Rental upon which the Contribution is based increased to a greater extent than was anticipated.
- „ „ 13.—*Convict Establishments in England and the Colonies*.—This Excess is attributed to the following causes: the introduction of a new scale of pay from 1st July, for which no provision was made; higher prices of clothing, provisions, and coal, than were anticipated when the Estimates for 1873-74 were under consideration; female convicts have remained longer at the refuges than formerly; and the settlement of claims with the Colonial Government of Tasmania on account of which a larger amount was received by the Imperial Government than it paid. Such Receipts have been paid into the Exchequer.
- „ „ 16.—*Broadmoor Criminal Lunatic Asylum, England*.—This Excess was caused by the enhanced price of coal.

Explanations—continued.

Class III. Vote 27.—*Court of Probate, Ireland.*—Salaries for five quarters became chargeable on the Vote for 1873-74.

„ „ 34.—*County Prisons and Reformatories, Ireland.*—This Excess is attributed to an increase of 200 *l.* to the Inspector's Salary, and also the salary of a Second Clerk, which were not anticipated at the time of the preparation of the Estimate. The expense of "Maintenance of Prisoners in County and Borough Gaols" was greater than had been anticipated.

„ „ 35.—*Dundrum Criminal Lunatic Asylum, Ireland.*—The actual number of Patients during the year was greater than that estimated for, and an increase took place in the price of bread.

Class IV. Vote 7.—*University of London.*—Microscopes were provided for in the Estimate for the year 1872-73, but not delivered within that year, and their cost has become a charge upon this year's Vote; and a sum has been spent upon the Library.

„ „ 15.—*National Gallery, Ireland.*—The Travelling Expenses exceeded the Estimate, and a small sum for "Purchase of Pictures" was expended beyond the provision.

„ „ 17.—*The Queen's University in Ireland.*—Payments applicable to 1872-73 were made in this year, and the Examiner's Expenses, which are of a fluctuating nature, exceeded the Estimate.

Class V. Vote 1.—*Diplomatic Services.*—This Excess is occasioned by a Special Allowance assigned to the Ambassador at Vienna, during the Exhibition there; by an increased allowance for and a change in the mode of paying the Rent at St. Petersburg; by some disallowances on the previous year having been allowed and charged; and the expenditure of the Mission to Zanzibar also proved greater than was anticipated. A moiety of these latter expenses, however, will be recovered from the Government of India, and paid into the Exchequer.

„ „ 6.—*Tonnage Bounties, &c., and Liberated African Department.*—The Excess arose on the provision for Bounties on Ships and Slaves Captured, the Expenditure for which can only be approximately estimated.

Class VI. Vote 6.—*Miscellaneous Charitable, and other Allowances, Ireland.*—The Lunatics were inadvertently provided for in the Estimate, at the rate of 27 *l.* per head, instead of 31 *l.* per head.

Class VII. Vote 1.—*Temporary Commissions.*—Several Commissions were continued for a longer term than was expected, and the charges for the Vienna Exhibition falling on the year, were more than the provision.

„ „ 2.—*Deep Sea Exploring Expedition.*—Certain payments on account of 1872-73 were made in 1873-74; dredging nets were provided, the expense of which was not anticipated when the Estimate was framed; the cost of the issue of Ships' Rations to the Scientific Staff of the "Challenger" was allowed to be charged; and rather more than a year's contribution to the "Ward Room Mess" became payable during the Year. Sundry small payments to Guides, for Porterage, &c., which had not been provided for, were also allowed.

CIVIL SERVICES.

1873-74.

STATEMENT OF EXCESSES.

A STATEMENT of Sums required to be Voted
in order to make good EXCESSES on certain
GRANTS for CIVIL SERVICES, for the Year ended
31 March 1874.

(Presented to Parliament by Her Majesty's Command.)

Ordered, by The House of Commons, to be Printed,
1 March 1875.

REVENUE DEPARTMENTS.

1873-74.

STATEMENT OF EXCESSES.

A STATEMENT of SUMS required to be Voted in order to make good EXCESSES on certain GRANTS for REVENUE DEPARTMENTS, for the Year ended 31st March 1874.

One Hundred and Forty-six Thousand Three Hundred and Sixty-five Pounds
Ten Shillings and Three Pence.

Note.—The Surplus on the remaining Grant for Revenue Departments, &c. for the same Year to be surrendered to the Exchequer amounts to 32,842 *l.* 16 *s.*

3	POST OFFICE - - - - -	36,575	2	1
5	POST OFFICE TELEGRAPH SERVICE - - - - -	109,790	8	2
	TOTAL Amount required to be Voted - - £.	146,365	10	3

EXPLANATIONS.

VOTE 3.—POST OFFICE:

The Department states the following as the chief causes of this Excess:—

Allowances to Postmasters for issuing Inland Revenue Licences, for which no provision was made; increased Work and Force and Improved Pay; the Cost of Uniform Clothing supplied to Letter Carriers and others exceeded the Estimate; the expense of Pillar and Wall Letter Boxes was greater than anticipated; and extended Office Accommodation entailed an increased consumption of Gas. The net excess on the charges for Salaries, Wages, and Allowances additional to Salaries, alone amounts to 31,697 *l.*

New Contracts for Conveyance of Mails by Road, and renewal of Contracts, with increased payments, led to an unanticipated increase of expenditure; new Bags were required for Australian Service; alterations had to be made in the Labels of the American Mail Bags; and the incidental expenses connected with the Conveyance of Mails were greater than anticipated.

More Officers retired under the Abolition Clause of the Superannuation Act than was anticipated.

VOTE 5.—POST OFFICE TELEGRAPH SERVICE:

The Department states the following as the chief causes of this Excess:—

The charges for carriage of Stores and Law Charges were under-estimated.

The amounts expended for Salaries, Wages, and Allowances, and in Travelling, were greater than was anticipated by 37,119 *l.*

The Vote was charged with materials used for Construction Works since 30th September 1873; large payments for maintenance by Railway Companies were made in settlement of arrears, the hire of Cable-ships, and a Royalty paid to Sir Charles Wheatstone were not provided for. The total excess on the Sub-heads under which the expenditure mentioned in this paragraph was included was 38,073 *l.*

Increased expenditure incurred at the Central Telegraph Station is attributed to an increase in the Number of Telegrams, the necessary experience to provide sufficiently for such expenditure not having been obtained when the Estimate was prepared.

Several unanticipated new Rents were authorised.

The force of Telegraph Messengers was increased by about 600 during the year, causing the expenditure for Telegraph Uniform Clothing to exceed the Estimate; the expenditure for Stationery and Small Stores was under-estimated by 26,327 *l.*

All Telegraph Capital Expenditure (16,847 *l.*) incurred by the Office of Works up to 30th September 1873 was charged to Telegraph Capital Account. This has since been charged to the Vote, which, not being anticipated, was not provided for in the Estimate.

SUPPLEMENTARY ESTIMATE

FOR

CIVIL SERVICES.

CLASS I.

— 4. —

FURNITURE OF PUBLIC OFFICES.

I. SUPPLEMENTARY ESTIMATE of the Amount required in the Year ending 31st March 1875, for the Supply and Repair of FURNITURE in the PUBLIC DEPARTMENTS.

Two Thousand Pounds.

II. HEAD under which this Vote will be accounted for by the COMMISSIONERS of HER MAJESTY'S WORKS.

	Additional Sum Required.	Amount already Granted on Original Estimate.	TOTAL.
	£.	£.	£.
FURNITURE OF PUBLIC OFFICES - - - - -	2,000	14,458	16,458

New Furniture has been supplied to the Departments of the First Lord of the Treasury and the Chancellor of the Exchequer; additional Entertainments at the Foreign Office, and the removal of the Board of Trade Library and Probate Registry, also occasioned increased expense.

CLASS I.—*continued.*

— 15. —

SURVEYS OF THE UNITED KINGDOM.

- I. SUPPLEMENTARY ESTIMATE of the Sum which will be required in the Year ending 31st March 1875, to defray the Expenses of SURVEYING the UNITED KINGDOM, including the REVISION of the SURVEY of IRELAND, MAPS for LANDED ESTATES COURT, IRELAND, PUBLICATION of MAPS, and ENGRAVING GEOLOGICAL SURVEY.

Five Thousand Five Hundred Pounds.

- II. SUB-HEADS under which this Vote will be accounted for by the COMMISSIONERS of HER MAJESTY'S WORKS, &c.

	Additional Amount Required.	Amount Granted on Original Estimate.	TOTAL.
	£.	£.	£.
B.—EXTRA PAY AND ALLOWANCES TO NON-COM- MISSIONED OFFICERS AND SAPPERS - - -	1,200	15,700	16,900
C.—PAY, &c. OF CIVIL ASSISTANTS, MERESMEN, AND LABOURERS - - - - -	3,300	95,068	98,368
D.—TRAVELLING EXPENSES - - - - -	500	3,425	3,925
F.—STORES - - - - -	500	4,250	4,750
£.	5,500	118,443	123,943

£.

The Total of the Original Estimate for Surveys of the United Kingdom, was - 132,000

Add,—Additional Amount required, as above - - - - - 5,500

TOTAL - - - £. 137,500

This amount is required to meet the Cost of Publication of the greatly increased Number of Maps, and for Work performed for the Irish Church Temporalities Commissioners, and the Thames Valley Drainage Commissioners, from both of which Public Bodies repayments will eventually be recovered. The increased Cost of Labour has also affected the expenditure.

CLASS II.—25.—STATIONERY AND PRINTING—*continued.*

EXPLANATIONS BY THE CONTROLLER OF THE STATIONERY OFFICE.

- A.—The Excess under this Head is due to the addition to the Establishment of an Assistant Examiner of Printers' Accounts in the Head Office, and an Assistant Examiner of Printing and Binding at the Dublin Branch, the employment of an additional Writer, and of extra Porters casually hired when the pressure of business required.
- B.—This Excess is owing to the hire of an additional Cart and Horse, rendered necessary by increase of business.
- D.—This Sum is required to pay a quarterly bill for Carriage, our accounts being examined and ready for payment at an earlier date than heretofore; a practice I intend to maintain.
- E.—This Excess is owing, to the extent of about 2,000 *l.*, to increase of business, but mainly to Bills incurred in previous years, but not sent in for examination, having fallen for payment upon the current year; partly also to sums transferred to the Admiralty for printing executed at Out-stations without the intervention of the Stationery Office, and only this year sanctioned by the Treasury.
- F.—This is to be accounted for by the increased demands for Printing and Binding generally, and partly also by transfers to Admiralty funds, as above explained.
- G.—This Excess, to the extent of one-half, is consequent on a quinquennial demand for Parchment Record Books for the Registry of Deeds in Dublin; the rest is attributable to larger supplies of Vellums and Parchments for sale to the public through the Stamp Offices of the Inland Revenue Department. It is not, therefore, really an increase of expenditure at all.
- H.—We had unusually heavy demands for binding Admiralty Ledgers and Irish Record Volumes, and tardiness on the part of the Contractors in rendering their bills threw a considerable sum, properly belonging to 1873-74, for payment upon the current official year.
- I.—The explanation of this Expenditure beyond what was anticipated, is that, besides some general increase in demands, there have been rather unusual purchases of Religious Books for the Army and Navy, in order to secure a reduction of price; unforeseen sums for new cancelling machines, rendered necessary by the substitution of Stamps for Fees in various Courts; and 500 *l.* transferred to the War Office for Books purchased for the Woolwich Academy, to replace those destroyed by fire. Besides this, accounts to the amount of 1,800 *l.*, owing to the illness of one of our examiners (since retired), could not be got ready for payment in 1873-74, to which year they properly belonged.
- J.—This Excess is caused almost entirely by the payment of a bill having been delayed over the 31st of March, and so become chargeable in the accounts of the current official year.
- K.—The Excess under this head is attributable to the publication for sale of an unusual number of military and other works. The issue of these can scarcely be foreseen beforehand; and as the cost and proceeds of Stationery Office Publications generally about balance each other, the matter has the less significance.

COPY of LETTER from the CONTROLLER of the STATIONERY OFFICE, forwarding the above
SUPPLEMENTARY ESTIMATE to the TREASURY.

Sir,

Stationery Office, 12 February 1875.

I HAVE the honour to forward my Supplementary Estimate for the year 1874-75, as desired by their Lordships' letter of the 4th instant.

Having been able to surrender a portion of my Parliamentary Grant last year, and being obliged this year, on the contrary, to ask for a Supplementary Grant, and being annually liable to either alternative, I am desirous of directing the attention of the Lords of the Treasury to the different position in which the Stationery Office is placed from that of all other Public Departments, in reference to the framing of its Estimates; and why these must always be exceptionally conjectural and uncertain.

I. Every

CLASS II.—25.—STATIONERY AND PRINTING—*continued.*

1. Every other spending Department can calculate pretty accurately what it will require, because it can determine what it will spend; can refuse to spend on any object which it has not provided for; can postpone to another year any outlay which cannot be brought within the sums asked for and allotted; can, in a word, resolve that its several branches shall spend neither more nor less (within a small margin) than its Parliamentary Grant.

The Stationery Office alone can do nothing of the sort. It must print whatever documents, prepare and bind whatever account books, set up, send to press and issue whatever publications it may be ordered to print, prepare, bind, and publish, by either House of Parliament, or by any one of many Government Departments, each, probably, embracing several branches. It can exercise scarcely any check—at best, and only rarely, even a suspensive check—on the extent of these orders; it must fulfil them, however much they may exceed what is usual or what was anticipated; its functions are limited, with few and slight exceptions, to executing the orders sent to it as promptly, as well, and as economically as possible.

Further, the Stationery Office must provide whatever amount of paper these orders, thus unforeseeable and uncontrollable, may involve.

Finally, it must purchase (of course on the best terms it can) whatever quantity of Books and Miscellaneous Small Stores the various Public Offices may require, exercising here indeed some degree of control, but only an occasional, a limited, and a suspensive one.

Thus the Stationery Office can really never know what sums it may be required and constrained to spend. It can only, by a reference to the experience of previous years (which supplies very inadequate data), and by special inquiry at the various offices (which scarcely adds to the materials for a decision) form some approximate conjecture of the amount which will be needed, a conjecture which a decision of this or that Minister, or Head of an Office, or the greater or less number of Commissions appointed or completing their labours, or the greater or less activity of Parliament, may utterly overturn.

If, indeed, each Department were to estimate and report what sums (for Stationery, Printing, Binding, Small Stores, &c.) it would require from the Stationery Office, and make demands upon it for no more, my position would be simplified and made easy. The truth would then become clear, viz., that the Stationery Office is a mere executive department, obeying orders whose amount it has no sufficient means of ascertaining, nor any means whatever of reducing within any specified sum. In fact, it should scarcely be made an estimating Department at all, if its estimate is to be regarded as more than the mere carefully framed expectation of men to whom the experience of years affords some guide.

But, in truth, the several Departments cannot form any very distinct or positive estimate themselves as to what sums they may wish, or require, or find it for the public good, to spend in Printing, Stationery, Stores, &c. in any given year, three months before the commencement of that year. They may wish to inaugurate a new set of account books; they may find it advisable to issue various unexpected commissions; to print various new "Command Papers" or Reports; to publish such and such Departmental volumes, and so on; or the two Houses of Parliament may appoint fewer Select Committees than last year, or many more; and it would be justly deemed intolerable that any of these determinations (all of them arrived at perhaps months after the Estimate of the Controller of the Stationery Office had been sent in, and not one of them foreseeable by him or them at that date) should be influenced for a moment by the fear of exceeding the grant allotted to him.

Of course there can be no objection whatever to the grant being thus exceeded, provided only it be borne in mind that in the case of the Stationery Office (as contra-distinguished from all other Departments) Supplementary Estimates are always to be expected; and (unless the discarded plan of allowing the Controller an unsunderable balance were to be resumed) can only be avoided by authorising him to frame his estimates on so liberal a scale that he would always be secure of having a surplus at the end of the year.

The Secretary to the Treasury.

I have, &c.
(signed) *W. R. Greg*,
Controller.

LAW CHARGES.

- I. SUPPLEMENTARY ESTIMATE of the Amount required in the Year ending 31st March 1875, to defray the Salaries of the LAW OFFICERS of the CROWN, and the LAW CHARGES, Salaries, Allowances, and Incidental Expenses, including Prosecutions relating to the Coin, in the Department of the SOLICITOR for the Affairs of HER MAJESTY'S TREASURY.

Ten Thousand Pounds.

- II. SUB-HEADS under which this Vote will be accounted for by the SOLICITOR to the TREASURY.

	Additional Sum Required.	Amount already Granted.	TOTAL.
	£.	£.	£.
D.—COSTS OF PROSECUTIONS, FEES TO COUNSEL, &c.	5,500	16,500	22,000
F.—COSTS OF INTERVENTION BY QUEEN'S PROCTOR IN DIVORCE CASES - - - - - }	3,500	5,000	8,500
H.—REVISION OF STATUTE LAW, &c. - - - - -	1,000	2,650	3,650
£.	10,000	24,150	34,150

	£.
The Total of the original Estimate for Law Charges was - - - - -	51,823
Add,—Additional Amount required, as above - - - - -	10,000
TOTAL - - - - -	£. 61,823

D.—The great length of the Trial of The Queen against Castro caused some of the Expenses unexpectedly to fall for payment within the Year 1874-75.

F.—The Expenses under this Sub-head have been increased by fresh Legislation (Statute 30 Vict. c. 31).

H.—Beyond the usual Salaries to Mr. Wood and others (1,650 *l.*), it was estimated that only 1,000 *l.* would be required during the year for payments to Mr. Rickards and others. This sum will however be exceeded.

CLASS III.—*continued.*

— 5. —

LONDON BANKRUPTCY COURT.

I. SUPPLEMENTARY ESTIMATE of the Amount required in the Year ending 31st March 1875, to pay such of the Salaries and Expenses of the LONDON BANKRUPTCY COURT as are not charged on the Consolidated Fund (32 & 33 Vict. c. 71, ss. 55, 62, and 63; 32 & 33 Vict. c. 83, s. 12; and 32 & 33 Vict. c. 91, s. 14).

One Thousand Five Hundred and Forty Pounds.

II. SUB-HEAD under which this Vote will be accounted for by the COMPTROLLER in BANKRUPTCY

	Additional Amount Required.	Amount already Granted.	TOTAL.
	£.	£.	£.
E.—COSTS OF PROSECUTION ORDERED BY THE COURT, under 32 & 33 Vict. c. 62, s. 16 - - -	1,540	7,000	8,540

The Total Amount of the original Estimate for the London Bankruptcy Court, was - £. 45,117
 Add,—Additional Amount required, as above - - - - - 1,540
 TOTAL - - - £. 46,657

E.—The amount already provided has proved to be insufficient. It is not practicable to estimate precisely the amount that will be required under this Sub head.

— 17. —

MISCELLANEOUS LEGAL CHARGES, ENGLAND.

I. SUPPLEMENTARY ESTIMATE of the Amount required in the Year ending 31st March 1875, to defray the Expense of MISCELLANEOUS LEGAL CHARGES in ENGLAND.

Two Hundred and Ten Pounds.

II. SUB-HEAD under which this Vote will be accounted for by the TREASURY.

	Additional Sum Required.	Amount Granted on Original Estimate.	TOTAL.
	£.	£.	£.
REVISING BARRISTERS - - - - -	210	18,480	18,690

Under an Order in Council, dated 7th July 1874, it was directed that the number of Revising Barristers to be appointed for the Home Circuit should be increased by one. This additional appointment necessitated the expenditure of the amount of this Supplementary Estimate.

CLASS III—*continued.*

TOTAL - - - £.	30,830

A.—In consequence of the recent Treaty with the Sultan of Zanzibar, greater facilities have been afforded for the operations of Her Majesty's Cruisers, and the number of captures has consequently increased.

K.—The capture of these Dhows was decided by the Judge of the Vice Admiralty Court at Aden to have been illegal and unauthorised. The Turkish Government preferred claims for compensation, and the above sum is required to meet the claims. Copies of the correspondence on the subject are appended.

CORRESPONDENCE.

— No. 1. —

Sir,

I AM directed by the Earl of Derby to transmit to you copies of two reports by the Registrar of the Court of Admiralty, relative to a claim which has been advanced by the Porte on Her Majesty's Government for compensation to the owners of certain dhows wrongfully destroyed by the boats of Her Majesty's ship "Thetis" in the Red Sea, in May last.

It will be seen from these Reports that General Schneider, the Political Resident at Aden, is of opinion that the sum of Fifty-six Thousand Two Hundred dollars should be offered as fair compensation, in which the Registrar with certain reservations concurs.

I am to request that you will lay these papers before the Lords Commissioners of Her Majesty's Treasury, and at the same time inform them that Lord Derby considers that, looking to the previous wrong which was undoubtedly committed by the boats of the "Thetis," on the occasion in question, it would be undesirable to attempt to revise an estimate of the losses incurred by the owners of the dhows, which has been arrived at after careful consideration by competent authorities, and he would therefore propose to endeavour to settle the matter with the Turkish Government upon the basis of awarding Fifty-six Thousand Two Hundred dollars as compensation, which is only about a third of the sum originally demanded.

Lord Derby would be glad to receive the sanction of the Board of Treasury to this course being adopted.

77.

D

I am

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued.*

I am also to transmit a copy of a letter from the Admiralty, with its enclosures in original, containing the result of the Court of Enquiry, appointed to investigate the matter, and I am to request that these original papers may be returned to the Admiralty.

The Secretary to the Treasury.

I am, &c.
(signed) *Robert Bourke.*

P.S.—I am also to request that the two reports by the Registrar of the Court of Admiralty which are enclosed herewith, may be returned to this office with your answer to this letter.

Enclosure (A) in No. 1.

Admiralty Registry, Doctors Commons,
6 December 1873.

Sir,

I HAVE to acknowledge the receipt of your letter of the 21st November, transmitting the claim of the Turkish Government, received by their Lordships from the Foreign Office, for compensation for the 10 dhows taken and destroyed in the Red Sea by Her Majesty's Ship "Thetis," also printed correspondence on the subject of this capture, and you inform me that their Lordships request to be advised whether, according to the rule of practice respecting the measure of damages which obtains in the Admiralty Court, any of the items of the claim are on principle inadmissible, and also to be furnished with any observations on the subject that may seem likely to assist their Lordships in estimating the amount which will have to be paid.

For the purpose of complying with this request, I have perused not only the papers which accompanied your letter, but the documents which, in the month of July last, were officially transmitted to this Registry by Brigadier General Schneider, the Judge of the Vice Admiralty Court at Aden, consisting of a copy of the proceedings taken in that Court, and which comprise the statements made by the captors, and also by two Arabs who were owners of two of the captured dhows.

It appears that on the 25th May last, Lieutenant H. Walters in pursuance of instructions from Captain Ward, commanding the "Thetis," left that ship and proceeded in chase of several dhows, six of which eventually anchored close to each other under one of the Sand Islands in Asab Bay, where Lieutenant Walters boarded them, and found what he considered abundant evidence to condemn them as engaged in and equipped for slave traffic; accordingly he landed the Arab crews, took into the ship's boats the negroes suspected of being slaves, and then set fire to and destroyed the six dhows.

On the following day, 26th May, having returned to the "Thetis" in the meanwhile, Lieutenant Walters again left that ship in one of her boats to search for dhows, and in the course of the day captured three more of these vessels, which for the same reason he likewise destroyed.

On this latter day (26th May) another officer of the "Thetis," Sub-Lieutenant A. J. Target, in obedience to orders, proceeded to board another dhow which he considered equipped for the slave trade, and which he also burnt, after taking the crew and five slaves to the "Thetis."

Two days afterwards, viz., on the 28th May, the "Thetis" arrived at Aden, where proceedings were instituted, and on the 30th May the case came on for adjudication, when the Judge of the Vice Admiralty Court pronounced the capture of these dhows to have been illegal and unauthorised, and condemned the captors in costs and damages.

This decree of the Judge seems to have been based on the fact that the commander of the "Thetis" was not furnished with the necessary authority to seize vessels suspected of being engaged in the Slave Trade, but General Schneider, the Judge, who also holds the position of Political Resident at Aden, intimates his belief, from inquiries he has made, that the character of these dhows and their crews had been misjudged by the captors, and that they were really engaged in mother-of-pearl fishing.

In now considering the claims advanced on behalf of these dhows, the first point to notice, is that they are not made through the Court at Aden, in pursuance of the decree just mentioned, in which case evidence in support of them would have been required, and, we may assume, might have been furnished there with comparative facility by the owners of the dhows, but they are preferred diplomatically by the Turkish Government, and are unsupported by any evidence of any kind, and consequently the difficulty of examining them and of expressing any useful opinion respecting many of the items of which they are composed is almost insuperable. The next thing to observe is, that the claims so preferred are in respect of only eight of the dhows, and that there is nothing to show why the other two dhows are not included.

The claims, then, in question are composed of 10 items or heads, though not exactly in the order in which I here place them, and propose to observe upon them, omitting the final and extravagant demand of 10,000 drachms of silver for the loss of one life, viz. :—

- | | |
|---|--|
| 1. Value of vessel. | 6. Loss of profits, calculated on profits made before we were prevented fishing. |
| 2. Value of rigging. | 7. Money plundered from owner and crew. |
| 3. Loss of shells. | 8. Rice and butter. |
| 4. Loss of pearls. | 9. Diving apparatus. |
| 5. Loss of profits from being prevented fishing for pearls and shells during 2nd month. | 10. Money due from crew for advances. |

First, as to items 1 and 2. There can be no reason for the unusual course of putting a separate value on the vessel and on the rigging, as is done in each of these cases. In all estimates of sea-going vessels, it is the convenient practice to calculate the value at so much per ton, to include masts, rigging, sails, &c. The claims themselves give no particulars, and convey no suggestion even as to the size and quality of these dhows. The only information on that point is supplied by the papers transmitted to this Registry, as before mentioned, from Aden, and amongst these papers are statements of the dimensions of each dhow, as measured by the captors, and a calculation founded thereon of the tonnage of each, and inasmuch as these calculations were made by the captors in the first instance, and with the object of claiming the usual bounties at so much per ton, as on slave vessels, it may be safely assumed that they do not understate the size of the dhows.

It appears, then, from these statements, that the 10 dhows were respectively of the following tonnage, viz. :—

72 tons.	70 tons.
154 "	113 "
42 "	22 "
109 "	30 "
52 "	49 "

but, unfortunately, there are no means of identification. The means of ascertaining which of the vessels

CLASS V.—6.—TONNAGE BOUNTIES, &c.—continued.

so measured and calculated, belonged to the several owners whose claims are before us, and it consequently becomes necessary to consider them all together.

I have already mentioned that at the time of the adjudication the owners of two of the dhows appeared before the Judge, and gave evidence on statements on their own interest, and they stated, amongst other things, that the value of their dhows was respectively 300 and 200 dollars; their names are given as Mohammed Nohammed and Sandbin Abdalla, names which do not correspond exactly with the names prefixed to either of the eight claims sent in by the Turkish Government. If, then, we adopt the assumption most favourable to the claimants, that the dhows so valued by their own owners were the two smallest in the preceding list, and were respectively of 30 and 22 tons burden, we have the owners putting upon their own vessels a value of about 10 dollars, or rather more than 2½ sterling per ton. I will assume, therefore, that the eight claims now advanced are in respect of the eight largest dhows, whose tonnage, according to the calculation of the captors, amounts altogether to 661 tons; and then if we put on these vessels a similar value of 10 dollars per ton, the total value of these eight dhows would be 6,610 dollars, instead of 18,710 dollars as claimed, equal, at 4s. per dollar, to 1,322½ sterling, instead of 3,740 £.

Next, as to items 3 and 4, Loss of Shells and of Strings or Bags of Pearls, which the dhows are supposed to have had on board as the produce of their fishing at the time of capture, the papers afford no data whatever for criticising these items; they furnish no information as to the length of time the several vessels had been engaged in fishing on this occasion. It may, however, be intended to be inferred that they had been so engaged for one month, inasmuch as the next item in each claim is thus worded: "Loss incurred from being prevented fishing during 2nd month," and the amount demanded on that account exactly equals the amount claimed for shells and pearls supposed to have been already collected. Again, I possess no knowledge or information as to the value of the shells so obtained in the Red Sea; the shells are charged at the uniform rate of four dollars each, whilst a very varying value has been placed on the strings or bags of pearls; in one claim they are charged as high as 75 dollars; in another, as low as 36 dollars per string. I must believe that the asserted loss under these heads, amounting as it does to 341,000 dollars, nearly 7,000 £, is grossly exaggerated, and I venture to suggest that it would be desirable to ascertain, perhaps through the Resident at Aden, how long these dhows had been engaged in fishing at the time of their capture, and to gain information generally as to the system of pearl fishing practised in the Red Sea. Their Lordships then would be better able to judge what would be a proper compensation to the owners for the interruption they suffered. I should add that the suggestion of these dhows having collected a considerable quantity of mother-of-pearl shell is confirmed by the Commander of H.M.S. "Dalhousie," who states in a letter to the Political Resident at Aden, appearing in the printed correspondence, that a few days after the capture and destruction of the dhows he proceeded to Asab Bay, and saw one partly burnt vessel with a portion of her cargo of mother-of-pearl shells still in her, and another with three heaps of shells by her side.

It may be inferred, however, from this statement, that the cargoes even were not totally lost, and perhaps too, they were not of much value; but, as regards the pearls, it can hardly be doubted that articles of value so portable in their nature would not have been left in their vessels; if not appropriated by the captors, as suggested, they would have been, and no doubt were, carried away by the Arabs themselves.

The next items for consideration are numbered 5 and 6 in the preceding list, and are thus worded: "Loss from being prevented fishing during second month," "Loss of profits calculated on those made before we were prevented fishing." Whatever may be the exact meaning of these words, it is quite clear they are intended to constitute a claim for prospective earnings, which on the principles which have been invariably laid down by courts of law in this country, and I might add in America likewise, cannot be sustained. In one case, the "Columbus," Dr. Lushington, the late most distinguished Judge of this Court, speaking of the principal involved in such a claim said: "If the principal contended for were once admitted, I see no limit to the difficulties which would be imposed upon the Court. It would extend to almost endless ramifications, and, in every case I might be called upon to determine, not only the value of the ship, but the profits to be derived on the voyage in which she might be engaged, and even those of the return voyage, which might be said to have been defeated by the collision." To the same effect, Mr. Justice Storey says in the case of the "Lively:" "Upon the whole I am well satisfied that the profits upon the supposition of a prosperous termination of the voyage ought not in any case to constitute an item of damage." In another case that learned Judge says, "the probable or possible benefits of a voyage as yet in *fieri* can never afford a safe rule by which to estimate damages in cases of a marine trespass." And again he says, "in cases of marine torts this Court has deliberately settled that the probable profits of a voyage are not a fit mode for the ascertainment of damages."

It would be easy to multiply authorities to the same effect, and I feel quite safe in confidently asserting that any claim for the profits that might possibly have been made by these dhows, if they had been left to continue their fishing without interruption, is of far too uncertain and speculative a character to be entertained by any court of law. The true rule is to give the injured parties the full value of the property actually lost, with interest on that amount, to the date of payment.

I next come to the 7th item, viz.:—Money (said to have been) plundered from the crew: the total sum claimed under this head exceeds 800 £, and I am unable to conceive with what object so large a sum could have been taken on board vessels of this class engaged in such a calling not far from their own ports, and said to have been amply supplied with provisions; it seems impossible, too, that the charge should be otherwise than unfounded, for, apart from the improbability of more than 300 Arabs being searched and robbed by a boat's crew, such a proceeding, on so great a scale, could not have been effected without the cognisance of the officers in command of the boats, and it cannot be supposed that they would have permitted anything so discreditable.

As to the item for Rice and Butter (No. 8), no doubt there may have been a considerable stock of provisions on board each dhow, for the captors speak of finding large quantities of farina, and the men to be fed numbered more than 300; but still, the sum claimed on this account amounted, as it does, to 5,500 dollars, equal to at least 1,100 £, appears very large, considering the nature and quality of the food.

The last head under which compensation is claimed is: Money due from crew for advances, and the sum asked under this head amounts altogether for the eight dhows to no less than 13,850 dollars, equal to about 2,770 £; reckoning the number of men employed to have been 336, as stated in the Turkish claim, this would give upwards of 8 £ per man. I do not know the rate of wages paid to the crews of Arab dhows, but I certainly imagine it to be less than that paid to ordinary English sailors; but measured by that standard, such a share would represent more than three months' wages, or three times as much as is usually advanced to English seamen; this item, too, besides being open like all the others to great suspicion, in point of amount is liable to objection, on the ground that so far as the money had been earned by the services of the crews, it will be repaid to the owner in any allowance that may be made for the pearls and shells which were the produce of the labour of the crews. In conclusion, I must express my regret at being unable, from lack of materials, to make a more useful report on these claims, and I venture again to suggest that, to enable their Lordships to give an approximate estimate of the amounts that will have to be paid, it might be desirable to refer these claims to the Political Resident at Aden, with the view of

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued.*

obtaining and furnishing information as to the system of fishing pursued by these Arab dhows ; I conceive that he could ascertain the ordinary value of such vessels, the length of time they are out without returning to port, the amount of provisions they take, the usual value of the shells and pearls so collected, the market to which they are taken, and the average earnings of the dhows engaged in the occupation ; he could probably also furnish valuable information as to the amount of money (if any) likely to have been advanced to the crew and to have been found on board. With information so obtained on these points, and with the explanation which their Lordships will probably call for from the officers or others engaged in the capture as to the charge of plundering, which is not only made in the claim, but is repeated in the Despatch of the Turkish Minister at Constantinople, addressed to Sir H. Elliot on the 3rd September, their Lordships would be better able to form an approximate estimate of the amount which ought to be paid in satisfaction of these claims.

I return the document sent to me, and am, Sir, &c.

The Secretary to the Admiralty.

(signed) *H. A. Bathurst.*

Enclosure (B.) in No. 1.

Admiralty Registry, Doctors' Commons,
17 January 1874.

Sir,

I HAVE to acknowledge the receipt of your letter of the 7th instant (L. M. M.), forwarding an original letter from the Foreign Office, dated the 29th December 1873, with enclosures, respecting the value of the 10 dhows destroyed by H.M.S. "Thetis," and requesting me to furnish their Lordships with any observations I may have to offer.

You will recollect that on the 6th of last December, I made a Report, as far as I was able to do, on the claims preferred by the Turkish Government for compensation for the destruction of eight of the dhows in question ; and I suggested that, as from the want of information my Report on these claims was necessarily incomplete, it might be desirable, in order to enable their Lordships to form an approximate estimate of the amount which should be paid in satisfaction of the claims, to refer them to General Schneider, the Political Resident at Aden, with the view of his obtaining and furnishing information on the following, amongst other points ; the system on which pearl fishing is carried on by Arab dhows ; the ordinary value of the vessels employed in it ; the length of time they are out on fishing voyages ; the amount of provisions they take with them ; the usual value of the shells and pearls collected ; the market to which they are taken ; the average earnings of the vessels ; and the amount of money likely to have been advanced to the crews, and to have been found on board.

The letter now enclosed from the Foreign Office mentions that the Secretary of State for India has been requested to call for a Report on the points so set forth by me, and pending the receipt of such Report, it encloses copies of Despatches from the Political Resident at Aden.

On perusing these Despatches they appear to furnish almost all that has been asked for ; but before proceeding to notice the information and suggestions they contain, I should mention that in one of these Despatches, dated at Aden, 12th November 1873, General Schneider states that he had received a further communication from the Pacha, who is Governor of Yemen, preferring a claim on behalf of the remaining two dhows out of the 10 destroyed, amounting to the excessive sum of 51,800 dollars, and from the extract from the Pacha's letter which he encloses, it appears that the claims are composed of the following items, viz. :—

	Dhow 9.	Dhow 10.
	<i>Dollars.</i>	<i>Dollars.</i>
Mother-of-pearl - - - - -	1,600	1,800
Pearls - - - - -	3,200	2,900
Skins - - - - -	2,000	2,500
Shells - - - - -	2,500	2,400
Cash - - - - -	1,500	1,800
Provisions - - - - -	700	800
Diving things - - - - -	600	700
Things of the buggalow - - - - -	500	600
Ghee - - - - -	1,500	1,800
Things of the crew - - - - -	1,600	1,900
Loss of time - - - - -	9,300	9,600
	25,000	26,800

It will be seen on comparing these claims with the former eight, that they are much of the same character, and are open to the same objections ; the third item for "skins" is probably the mats spoken of by the captors, and is only part of the equipment of dhows for the use of their crews.

In his other Despatches, and especially in the last of them, General Schneider enters into considerable detail as to these several claims, and makes able and useful observations respecting them, though he remarks that in the absence of the owners of the vessels and their witnesses it is difficult to arrive at a correct assessment of the damage sustained.

It appears that the dhows engaged in mother-of-pearl fishing in the Red Sea start from Kamram, Furzan, and Loheia about the month of March, and make two trips during the year, the second trip ending about the 1st December.

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued.*

It was, it will be remembered, in May and during their first trip, that the dhows in question were interrupted and destroyed. The vessels are usually between 80 and 20 tons burden, and have an average crew of 40 men, of whom three-fourths are divers, and one-fourth sailors; the men do not receive regular wages, but they share in the profits of the season in the proportion of one-fifth to the owner of the dhow, and four-fifths to the crew.

General Schneider then selects the first on the list of the claim, and proceeds to analyse it in detail, his remarks being applicable to all the others; he sets it forth thus:—

	Dollars.
(1.) 400 maunds of mother-of-pearl shell, at four dollars per maund - - - - -	1,600
(2.) 40 pearls, large and small - - - - -	1,500
(3.) Loss of time, profits, first voyage - - - - -	3,100
(4.) Loss of time, profits, second voyage - - - - -	3,100
(5.) Cash - - - - -	300
(6.) Provisions - - - - -	200
(7.) Boats (tackle, &c.) - - - - -	600
(8.) Diving materials - - - - -	100
(9.) Price of boat - - - - -	1,100
(10.) Crew's debts (wages) - - - - -	1,500
TOTAL - - - - -	13,100

As to the shells on board at the time of seizure, he says, "inquiry has shown that the earnings of one successful voyage in mother-of-pearl fishing varies according to the size of the dhows, and may be set down as averaging from 1,000 dollars to 3,000 dollars. Mother-of-pearl shells fetch at Aden from three dollars to three and a half dollars per maund, and at Jeddah the price is much greater, and as even a 15-ton boat can carry 400 maunds of these shells, it is not thought that the claims in this instance of 1,600 dollars under that head is excessive."

As to the pearls, he says, "no reliable opinion can be given, but 1,500 dollars would be an enormous profit on pearls in the Red Sea, and that moreover they are not found at Asab Bay, where the dhows were destroyed, but close to Loheia."

I before remarked on the probability that such small articles if on board would have been secured by the crew, and not lost to them. Items 3 and 4. The wording of these items, owing to a difference in translation, varies from the corresponding Items (5 and 6) on which I observed in my former Report, and I am still at a loss to know exactly what they mean; in the former translation these items were as follows: "Loss of profits from fishing for pearls and shells during second month; loss of profits calculated on profits made before we were prevented fishing," both apparently being a claim for prospective or possible future earnings as distinguished from realised earnings, and on that ground inadmissible according to the principle uniformly recognised in such cases. Here the same items are worded thus: "Loss of time, profits of first voyage;" "Loss of time, profits of second voyage," and General Schneider correctly observes as to them that "they appear to be absurd; the time of the men employed in the dhows was worth what they could earn. It follows therefore that if the owner is paid for a full cargo for a working season, he and the crew will receive fair compensation." This reference of his to compensating the owner for a full working season I shall have occasion to notice presently.

As to Item 5 for Cash, he says, "it is not understood, and is thought to be excessive, the money could not belong to the crew, as they are provisioned by the owner, and as a rule so much cash is not carried except as cargo."

There can be no doubt the amount claimed is very excessive, and, as I before suggested, their Lordships may get some explanation of it from the captors, who have been accused of plundering it.

As to Item 6, General Schneider says, "it is not a legitimate charge; the owners of dhows buy provisions to last the whole voyage, they feed the crew, and afterwards deduct 1-25th from their share of profits; if therefore compensation is given for estimated profits, it covers the cost of the provisions alleged to have been destroyed, and it is immaterial how the provisions were disposed of, whether consumed by the crew or destroyed."

These comments are perfectly well founded if the claimants are to receive compensation for the full estimate profits of one whole voyage or fishing expedition, instead of compensation only, for the value of articles already collected at the time the uncompleted voyage was interrupted; in the latter case some reasonable compensation should be given for the unconsumed provisions on board at that time.

Item 7, he says, is thought to mean tackle, sails, &c., and must be included in the price of the dhows; a view similar to that which I have already expressed in my previous Report.

Item 8. The diving apparatus, he states, consists of a few ropes and baskets, and may be purchased for some 20 dollars.

Item 9 refers to the value of the dhows, and on this question General Schneider says, a 40-ton dhow for mother-of-pearl fishing, four years old, and complete in everything, was purchased at Aden about a month ago (October last) for 800 dollars; a 20-ton dhow was bought at the same time for 160 dollars, the owner having stated a new one would cost 400 dollars, and he concludes that an average of 1,000 dollars per dhow will represent the value of those destroyed.

Item 10, he says, "is thought to refer to the wages of the crews, but they are not paid in this manner; in lieu of wages they take 4-5ths of the profits, subject to a deduction of 1-25th of their share for the provisions supplied by the owner, and they usually receive an advance for their families, ranging from one-fourth to one-half of the probable profits."

In the former claim the item was called money due from crew for advances; no doubt, therefore, it is for advances to the families of the crew in accordance with the system here described, and should be disallowed, as being covered by the proposed allowance for the profits of the voyage.

General Schneider, in conclusion, says, that having "given the matter his best consideration, from the information he has been able to gather locally, he sees no reason to depart from the figures he has

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued.*

already submitted, with the exception of the items for blood-money, on which account he suggests an additional charge for three other men who are missing, and supposed to have also lost their lives. He proposes, therefore, that compensation should be made as follows :—

	Dollars.
Price of 10 dhows averaging 1,000 dollars each - - - - -	10,000
Diving and other apparatus - - - - -	200
Loss of earnings of 10 dhows during the first trip of the season, commencing in March and interrupted in May - - - - -	20,000
Loss of earnings to 10 dhows during the second trip of the season ending about 1st December, and missed by the destruction of the said dhows - - - - -	20,000
Cash on board - - - - -	1,000
	51,200
Blood-money for one man killed - - - - -	1,250
Blood-money for three others missing and supposed to have lost their lives - - - - -	3,750
Dollars - - - - -	56,200

He then, after showing the proportion in which the 51,200 dollars would be payable among the 10 claimants if divided according to the tonnage of each dhow, as ascertained by the captors, further observes, that the tonnage of the several dhows is not ascertainable from the documents forwarded by the Governor of Yemen, but he has no doubt their capacity is known by their owners, and that there would be no difficulty in making a fair distribution of the compensation.

The result of this is—

First.—That as the total tonnage of the dhows as given by the captors was 661 tons, probably rather an exaggerated calculation, this proposal amounts to an allowance of about 15 dollars per ton.

This seems a fair and liberal average, judging by the data we have, viz., that the owners of two of these dhows, when at Aden at the time of adjudication, put a value upon their vessels equal to about 10 dollars per ton, and that recently a dhow of 40 tons, complete in everything, was purchased for 800 dollars or 20 dollars per ton, whilst another of 20 tons at the same time was purchased for 160 dollars, or only 8 dollars per ton.

Secondly.—In lieu of 48,400 dollars claimed as the value of the shells and pearls already obtained at the time the dhows were destroyed, General Schneider recommends an allowance to the 10 dhows of 20,000 dollars in all, as being the amount of their probable profits for the first trip of the season.

The sum certainly appears to me to be moderate, considering the information he gives on the subject, and that such sum is to cover the advances to the crews of the vessels, as well as the cost of provisioning them. With respect, however, to his further recommendation of a similar allowance of 20,000 dollars, for supposed loss of earnings during the second trip of the season, ending about the 1st of December last, and commencing, I suppose, four months earlier, or late in July, I must say it seems especially open to all the objections to an allowance for prospective earnings. It would be to compensate the claimants for loss of profits during a period long subsequent even to the time their claims were preferred, and during which, too, they may have been profitably employed in other dhows.

This suggestion is rendered the more probable by the prudent and zealous efforts which General Schneider most promptly made immediately after the occurrence, to explain to the people, through the Governor of Hodeida, the unfortunate mistake that had been made, to express regret for it, and to allay all fears.

If such a demand were to be recognised, it is difficult to say where it would stop; it might almost as reasonably be extended to the profits of the next season also.

I submit that it would be better to make a more liberal estimate of the loss sustained by the interruption of the fishing expedition the men were engaged in.

As to the other proposed allowances of 200 dollars for the diving apparatus, and 1,500 dollars for cash on board the 10 dhows, I have no observation to make. I have no doubt that General Schneider has formed a sound judgment on the point; neither shall I venture to dissent from the amount he recommends under the title of blood-money as compensation for the loss of four lives, though I am not aware that it has been formally represented by any Turkish authority that more than one life was sacrificed on the occasion.

The observations comprise all that it is in my power to make, but I should perhaps draw attention to the opinion which General Schneider expresses near the close of his despatch; he says, that “if the compensation is to be fixed by a formal investigation held either at Hodeida or Aden, it would probably lead to interminable delay, and be productive of much trouble and expense to all parties,” and he adds that he is “satisfied the sum he proposes, which amounts to about one-third of that demand, is not excessive, and although it may actually represent more than the losses that have been incurred, yet, looking to the grievous wrong that has been committed towards the owners, and the sufferings that were endured by the crews of the dhows, he earnestly hopes that the complaint will be promptly and liberally considered by Her Majesty’s Government, so that the matter may be closed as soon as possible.”

I beg to return the papers transmitted to me.

The Secretary to the Admiralty.

I am, &c.
(signed) H. A. Bathurst.

Enclosure (C.) in No. 1.

Sir,

Admiralty, 28 February 1874.

WITH reference to previous correspondence relative to the destruction of dhows in the Red Sea by H.M.S. “Thetis” in May 1873, I am commanded by my Lords Commissioners of the Admiralty to transmit to you herewith, for the consideration of the Secretary of State for Foreign Affairs, the minutes of the court of inquiry lately assembled to inquire into the case.

My Lords consider that the proceedings of Captain Ward were the result of over zeal in the discharge of what he considered to be his duty, and of a misapprehension of the power with which he was invested.

They do not propose to take any further steps beyond conveying to Captain Ward their disapproval of his conduct, and should the Earl of Derby consider that Rear Admiral Cumming is no longer required at Aden, they propose that he should proceed to Bombay.

I am to request that the enclosures which are in original may be returned.

The Under Secretary of State for Foreign Affairs.

I am, &c.
(signed) Robert Hall.

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued.*

— No. 2. —

Sir,

Foreign Office, 20 March 1874.

I AM directed by the Earl of Derby to transmit to you, for the information of the Lords Commissioners of Her Majesty's Treasury, a copy of a report from the Political Resident at Aden, furnishing some particulars asked for in the report of the Registrar to the Court of Admiralty on the 6th of December, which is among the papers sent you on the 11th instant relating to the dhows illegally destroyed by H.M.S. "Thetis" in the Red Sea in May last year.

I am to request that the enclosed paper may be eventually returned to this office.

The Secretary to the Treasury.

I am, &c.
(signed) *Robert Bourke.*

Enclosure in No. 2.

(No. 9.)

My Lord Duke,

Aden, 14 February 1874.

I HAVE the honour to acknowledge the receipt of India Office letter, dated London, 9th January 1874, with further papers respecting the destruction of certain dhows in Asab Bay by H.M.S. "Thetis," and to observe that the information called for by the Lords of the Admiralty on the Report submitted by the Registrar of their High Court has, for the most part, been already furnished in my Despatch, No. 70,* dated the 19th November 1873.

* Copy sent to Foreign Office in India Office Letter of 22nd December 1873.

2. For easy reference I proceed to summarise the points raised by the Registrar. They are as follows:—

(a) That an extravagant demand of 10,000 drachms of silver has been made for the loss of one life.

(b) That a separate value has been put upon each dhow, and on the rigging, whereas it is the convenient practice to calculate the value of a vessel at so much per ton, including masts, rigging, sails, &c.

(c) That, while the tonnage of the dhows destroyed was ascertained by the captors, there are no means of finding out to which individual owner they belonged, and that, consequently, it becomes necessary to consider them all together.

(d) That, as the owners of the two dhows stated the value of their vessels to be respectively 300 dollars and 200 dollars, a fair estimate of the value of the 10 dhows may be calculated on the assumption that the said two dhows were respectively of 30 and 22 tons burden, and the smallest of those destroyed; that this, at about 10 dollars per ton, would give a value for eight dhows of 6,610 dollars, instead of 18,711 dollars.

(e) That there are no means of criticising the claims for the alleged losses on account of shells, and of strings or bags of pearls, or of ascertaining the length of time the dhows may have been engaged in fishing, and that the asserted losses, said to amount to 341,000 dollars, are grossly exaggerated.

(f) That, as pearls are so portable, it can hardly be doubted that they were carried away by the Arabs themselves.

(g) That the claim put forth for losses incurred by reason of not being able to undertake the second fishing voyage of the year, that is, for prospective earnings, is inadmissible under several rulings, and others that might be quoted.

(h) That the amount claimed for actual money said to have been plundered from the dhows is excessive; and that it cannot be conceived with what object so large an amount could have been taken on board. That it is not to be supposed the officers in command of the "Thetis" boats would have permitted anything so discreditable.

(i) That the sum demanded as compensation for provisions on board the dhows destroyed is also excessive.

(k) That the amount claimed for advances or wages is too great, and that it should be repaid to the owner of a dhow in any allowance that may hereafter be made for the pearls and shells which were the produce of the labour of the crews.

(l) That the Political Resident at Aden should be required to furnish information on the following points:—

(1.) The system of fishing pursued by Arab dhows.

(2.) The ordinary value of such vessels.

(3.) The length of time they are out without returning to port.

(4.) The amount of provisions they take on board.

(5.) The usual value of shells and pearls so collected, and the market to which they are taken.

(6.) The average earnings of dhows engaged in mother-of-pearl fishing.

(7.) The amount of money, if any, likely to have been advanced to the crews, and to have been found on board.

3. As regards the item (a) of paragraph 2, I would observe that the Registrar of the High Court of Admiralty is mistaken in supposing 10,000 drachms of silver was demanded as blood-money for the loss of one life; it was 10,000 dirhems. The amount allowed under my assessment in Report, No. 70—110 of the 19th November 1873, is 1,250 dollars for each life, which does not appear, under the circumstances, to be an extravagant claim. The amount of blood-money varies in different parts of Africa and Arabia, and may be set down at 700 dollars, 800 dollars, 1,000 dollars, and upwards. So many head of cattle may be given in lieu of cash payments.

4. The objection under the head (b) is disposed of in paragraph 11 of the Report above quoted, and has been recognised by the Political Resident. Rigging, &c. is included in the value of the dhows.

5. The

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued*.

5. The difficulty noticed under the head (c) has been considered in paragraphs 15 and 16 of the Report which has been referred to; and I do not anticipate there would be much difficulty in effecting an equitable distribution of any compensation that may be awarded.

6. Under the head (d) the Registrar values eight dhows at 6,610 dollars, accepting, as his guide for calculation, the value assigned to their dhows by two of the reputed owners, which, in their statements before the Political Resident, they stated to be 300 dollars and 200 dollars respectively. In my assessment I have averaged the 10 dhows altogether at 10,000 dollars, for the reason given in paragraph 13 of my Report, and have fixed their several values according to their tonnage as ascertained by the officers of H.M.S. "Thetis." There is so little difference between the calculation by the Registrar and that of the Political Resident, that I am unable to recommend any abatement in this charge. It must be remembered it has gone abroad that the destruction of these dhows was an unfortunate mistake, much regretted by the British Government; and, in determining what compensation shall be given to the sufferers, I conceive it will be the desire of Government that a liberal construction shall be placed on the claims that have been advanced.

7. In respect of the head (e) I would remark that there are two, and sometimes even three, fishing seasons for mother-of-pearl, of a duration of about three or four months each. The claim advanced for losses in shells and pearls are discussed in paragraphs 6 and 7 of my Report of the 19th November 1873, and I can discover no ground to reduce the amount of compensation recommended under Clause 3, of paragraph 15, and which it is proposed should be distributed according to the tonnage of the several dhows destroyed.

8. The objection raised by the Registrar under the head (f) is remarked on in paragraph 7 of the Report already alluded to; but since writing it I have ascertained that pearls are found in Asab Bay, and that large profits are made under this head.

9. As regards the claim for prospective earnings put in by the owners of the 10 dhows, and objected to under the head (g), I have no observations to offer, beyond the remark that if this view of the claim is accepted, the amount to be distributed proportionately among the owners would be reduced from 51,200 dollars to 31,200 dollars, with interest at 9 per cent. per annum, the Indian rate from the date of the destruction of the dhows.

10. In respect of the amount claimed for money said to have been plundered on board the dhows, and discussed by the Registrar of the High Court of Admiralty under head (h), I would refer to paragraphs 9 and 15 of my Report of the 19th November 1873. I have allowed 1,000 dollars on this head proportionately, according to the tonnage of the several dhows. I have no doubt there was money on board. The Akrali Sheikh, one of the Arab chiefs, near Aden, in Treaty alliance with Government, complained that some of his people who formed part of a crew had been plundered of four dollars and three rupees in cash. The investigation now being conducted at Aden on the proceedings of H.M.S. "Thetis" should show whether this claim is over-estimated. And as regards the doubt raised as to there having been any money on board, it is clear that the owners and nakodas of dhows might desire to purchase cattle and other articles on the African coast, to which they were quite close.

11. The question of compensation for provisions alleged to have been destroyed on board the dhows, referred to under head (i), is disposed of in paragraph 10 of my Report of the 19th November 1873, and was not allowed, for the reasons assigned therein.

12. The objection raised under the head (k) is referred to in paragraph 14 of my Report, and the claim for wages to the crews was not admitted, as they are paid by a share in the profits.

13. With regard to the information asked for under the head (l), I beg to offer the following observations:

(1.) Dhows start from Kamram, Fursan, and Loheia about the month of March, and sometimes earlier, and make two or three voyages in a year, which are said to last for about three or four months, as already observed. The dhows used average from 80 to 20 tons, with a crew of about 40 to 60 men, of whom three-fourths are divers and one-fourth sailors. The measurements, taken by officers of H.M.S. "Thetis," indicate that dhows of a larger size than 80 tons are occasionally employed. The profits are divided in the proportion of one-fifth to the owner of the boat and four-fifths to the crew. Further, about 1-25th is said to be deducted from the crew's share for provisions supplied to them during the season. The crew also usually receive an advance of wages or provisions for their families, averaging from one-fourth to one-half of the probable profits of a voyage.

(2.) As stated in paragraph 13 of my Report of 19th November, a 40-ton dhow was recently purchased at Aden for 800 dollars. A 20-ton boat was bought for 160 dollars at the same time. It was an old one. A new one would have cost 400 dollars. Prices of course fluctuate, but the above may show the Registrar of the High Court of Admiralty that the assessment made by the Resident is not excessive.

(3.) It has already been stated that dhows engaged in mother-of-pearl trade are out about three or four months at a time.

(4.) It is said that 150 lbs. of fowarree-farina is taken on board per man for a voyage, together with a quantity of water, ghee, clarified butter or oil, with some dates, spices, and tobacco.

(5.) The value of mother-of-pearl shells at Aden averages from three dollars to three and a half dollars per maund (28 lbs.). At Jeddah the price is much greater. The question of pearls does not arise under the award I have suggested.

(6.) The average earnings cannot be ascertained with any degree of precision. Much would depend on the size of the dhow and the number of hands employed, the industry of the divers, a good season, and various other contingencies. A 15 or 16 ton dhow can carry 400 maunds of shells.

(7.) The information asked for here has already been given. A certain amount of money would certainly be found on board dhows with owners and nakodas, but not to any large extent with the crews, who have to provide for the subsistence of their families during their absence, and who receive advances for this purpose.

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued.*

14. In conclusion, I have only to renew the expression of a hope that the claims under review may be liberally considered. It was in the nature of things, and in accordance with Asiatic customs, that an extravagant demand should be put forth. Every effort should, in my opinion, be made to avoid bringing the question of damages before the Vice Admiralty, or any other court. Such a procedure would give endless trouble, and cause much delay in the settlement of this question. And further, with a knowledge that the British Government will probably be the paymaster of these damages, it may be safely asserted that false evidence would be adduced from all quarters to exaggerate the losses alleged to have been sustained by the destruction of the 10 dhows in Asab Bay.

15. Copy of this letter will be sent to the Government of Bombay.

To Her Majesty's
Principal Secretary of State for India.

I have, &c.
(signed) *J. W. Schneider,*
Brigadier General, Political Resident, Aden,
and Judge of the Vice Admiralty Court there.

— No. 3. —

(4364/74—4,910/74.)

My Lord,

Treasury Chambers, 6 April 1874.

I AM directed by the Lords Commissioners of Her Majesty's Treasury to return to you herewith the original documents forwarded in Mr. Bourk's letter of the 11th ultimo, on the subject of the destruction of certain dhows in the Red Sea by the boats of H.M.S. "Thetis" in May 1872; and I am to state, for the information of the Earl of Derby, that my Lords agree to the course proposed by him, viz., that his Lordship should endeavour to settle the matter with the Turkish Government, upon the basis of awarding 56,200 dollars as compensation to the owners of the dhows.

I am to add that, on hearing the sum which may be finally agreed upon, my Lords will prepare and submit to Parliament a Supplementary Estimate for the amount.

Lord Tenterden, C.B.

I am, &c.
(signed) *William Law.*

— No. 4. —

(4364/74—4910/74.)

Sir,

Treasury Chambers, 13 April 1874.

I AM commanded by the Lords Commissioners of Her Majesty's Treasury to return to you herewith the enclosed documents, forwarded through the Foreign Office, relating to the destruction of certain dhows in the Red Sea in the month of May 1872, by the boats of H.M.S. "Thetis," and in doing so I am to state that my Lords cannot refrain from taking this opportunity of expressing to the Lords Commissioners of the Admiralty their regret that an officer commanding one of Her Majesty's ships should have been so wanting in judgment and discretion as to allow himself to be led into perpetrating an outrage, which not only entails great expense on the public, but also brings discredit on the efforts of this country to suppress the slave trade in the East African Seas. Indeed, Captain Ward's error of judgment appears to my Lords to have been so inexcusable that had the sum to be paid in compensation been only of a moderate amount, they would have been inclined to insist on its being made good by him and his fellow officers. As it is, my Lords feel that it would be impossible to call upon them to bear the cost of the transaction, and they will therefore be prepared to submit to Parliament a Supplementary Estimate for the amount which the Turkish Government may ultimately agree to accept as compensation to the owners of the dhows.

In doing so, however, they would wish to be able to assure the House of Commons that every effort will be made to ensure, in future, the exercise of proper caution on the part of officers in command of those of Her Majesty's ships which are stationed on the East Coast of Africa for the purpose of suppressing the traffic in slaves; and they trust, therefore, that their Lordships of the Admiralty will, with this object, take such steps as may appear to them to be necessary to impress on all officers on that station the need of using care and discrimination in the execution of the duties with which they are charged.

The Secretary to the Admiralty.

I am, &c.
(signed) *James H. Cole,*
For Secretary.

— No. 5. —

Sir,

Admiralty, 13 May 1874.

I HAVE laid before my Lords Commissioners of the Admiralty your letter of the 13th April, No. 4364—4910/74, relative to the destruction of certain dhows in the Red Sea by the boats of H.M.S. "Thetis," and communicating the intention of the Lords Commissioners of the Treasury to submit to Parliament a Supplementary Estimate for the money necessary to provide compensation to the injured parties.

2. My Lords desire me in reply to state to you, for the information of the Lords of the Treasury, that though they consider the error committed by Captain Ward to have arisen in great measure from excessive zeal on his part, they have greatly regretted it, and they have already conveyed to that officer their disapproval of his action in marked terms.

With respect to the future, the case being very singular in its circumstances, is one which, in their Lordships' opinion, is extremely unlikely to occur again; but to guard against its repetition, they have thought it right to furnish a copy of the slave trade instructions to all ships on foreign service, instead of, as heretofore, only to those engaged in, or about to be engaged in, the suppression of the slave traffic. These instructions, as the Lords of the Treasury are aware, lay down the duty of the naval officer in very clear terms, and will, my Lords trust, effectually warn officers against such mistakes as took place in the present case.

The Secretary to the Treasury.

I am, &c.
(signed) *Algernon Egerton.*

CLASS V.—6.—TONNAGE BOUNTIES, &c.—*continued.*

— No. 6. —

Sir,
 WITH reference to your letter of the 6th of April last, I am directed by the Earl of Derby to transmit to you a copy of a letter addressed to the India Office, requesting that the sum of Fifty-six thousand two hundred dollars may be paid by the British Resident at Aden to the sufferers by the destruction of the dhows in the Red Sea by the boats of H.M.S. "Thetis" in May 1873.

Foreign Office, 15 October 1874.

The Secretary to the Treasury.

I am, &c.
 (signed) T. V. Lister.

Enclosure in No. 6.

Sir,
 WITH reference to your letter of the 16th of March, and previous correspondence relative to the compensation to be awarded for the destruction in the Red Sea of certain dhows by the boats of H.M.S. "Thetis," I am directed by the Earl of Derby to request that you will inform the Secretary of State for India in Council, that in April last Her Majesty's Chargé d' Affaires at Constantinople was instructed to offer the sum of 56,200 dollars, which was considered as ample compensation on the claim being scrutinised by the British Resident at Aden, and by the Registrar of the High Court of Admiralty.

Foreign Office, 15 October 1874.

Lord Derby has recently received communications from the Porte, through the Ottoman Ambassador at this Court, demurring to this award; but after consideration his Lordship has informed Musurus Pacha that Her Majesty's Government see no reason for not adhering to it, and that in order to save further delay, and to comply with the wishes of the claimants, the sum in question will be paid to them by General Schneider.

I am accordingly to request that you will move the Marquis of Salisbury to cause that officer to be instructed to take steps immediately on his return to Aden to pay the money to the proper parties, taking their receipts in full satisfaction of their respective claims.

The Under Secretary of State, India Office.

I am, &c.
 (signed) T. V. Lister.

— No. 7. —

(Immediate.)
 Sir,
 WITH reference to Mr. Lister's letter of the 15th ultimo, I am directed by the Earl of Derby to transmit to you a copy of a letter from the India Office asking for the authority of the Board of Treasury to enable General Schneider to draw on them for the amount of 56,200 dollars to be paid to the sufferers by the destruction of certain dhows in the Red Sea by the boats of H.M.S. "Thetis" in 1873; and I am to request that you will move the Lords of the Treasury to issue, at their early convenience, the necessary formal authority, as requested by Lord Salisbury.

Foreign Office, 7 November 1874.

The Secretary to the Treasury.

I am, &c.
 (signed) Robert Bourke.

Enclosure in No. 7.

My Lord,
 I AM directed by the Marquis of Salisbury to acknowledge the receipt of your letter of the 15th instant, noted in the margin, and in reference to it to say that his Lordship will send the necessary instructions to Brigadier General Schneider, in compliance with the Earl of Derby's wishes, to take steps immediately on his return to order to pay the indemnity of 56,200 dollars, awarded to various claimants as a compensation for destruction in the Red Sea of certain dhows by H.M.S. "Thetis."

India Office, 29 October 1874.

Before transmitting these instructions, Lord Salisbury would be glad to receive, for Brigadier General Schneider's guidance, the requisite authority to enable that officer to draw on the Imperial Treasury for the amount in question.

The Under Secretary, Foreign Office.

I have, &c.
 (signed) Louis Mallet.

— No. 8. —

(17,225/74.)
 Sir,
 I AM directed by the Lords Commissioners of Her Majesty's Treasury to acknowledge the receipt of your letter of the 7th ultimo, transmitting a copy of a letter from the India Office, with reference to the payment of the sum of 56,200 dollars as compensation to the sufferers by the destruction of certain dhows in the Red Sea by the boats of H.M.S. "Thetis" in 1873.

Treasury Chambers, 2 December 1874.

Their Lordships desire me to request that you will move the Secretary of State for Foreign Affairs to cause the Secretary of State for India in Council to be informed that their Lordships are prepared to pay the above-mentioned sum, and to request Lord Salisbury will give instructions to the Resident at Aden to advance the sums to be paid as compensation. Their Lordships, on being informed of the total amount in British sterling, and on being furnished with vouchers for the various payments, will repay to the Indian Government the sum advanced, and they would be glad to receive the earliest possible intelligence of these payments in order that a Supplementary Vote for the amount may be taken in the ensuing Session, before the close of the financial year.

I am directed to add that, in view of the circumstances of the case, and of the necessity of asking Parliament for a grant to pay the above-mentioned compensations, it is their Lordship's intention to lay the papers connected with the subject before Parliament.

The Under Secretary, Foreign Office.

I am, &c.
 (signed) R. R. W. Ling.
